Legende i mitovi su oduvek zao-
kupljivali pažnju čoveka.

*Od kada smo bili mali, bez daha smo
slušali priče o vitezovima, urbanim
legendama, narodnim junacima, u
kojima ljubav, hrabrost, upornost i
mudrost pobeđuju zlo i sve ono ne-
gativno što nas okružuje.*

*Nije čudno što bismo svi mi, bar po-
tajno, i na trenutak, želeli da uskoči-
mo u neku bajku, daleko od realno-
sti i svakodnevnice; da se vratimo
u vreme balova i kraljeva, ili pak
da probudimo istraživački i avanturistički duh u nekoj mističinoj pećini
ili na arheološkom nalazištu. To je nešto što bismo svakako zapamtili sa
ushićenjem i osmehom.*

*Pri organizaciji događaja u kojima je cilj da se kreira jedinstven i nepo-
novljiv doživljaj učesnika, potreban je neobičan i poseban prostor ili sme-
štaj koji će dočarati vreme i okruženje van stvarnosti u kojoj se trenutno
nalazimo. Bilo da je to putovanje u prošlost ili budućnost, ili jednostavno
ruralno okruženje koje nas vraća prirodi i istinskim vrednostima.*

*Kompanijama i organizacijama je sve neophodnije zadovoljstvo i motivi-
sanost zaposlenih kako bi napredovale i ostale konkurentne. Zato i raste
potreba i potražnja za neobičnim prostorima kako bi se kreirali događaji
za pamćenje, posle kojih će zaposleni danima da prepričavaju utiske i
anegdote.*

*U ovom broju SEEbtm magazina, dajemo Vam neke ideje gde se u našem
regionu mogu realizovati događaji za pamćenje u nestandardnim pro-
storima, primere nekih neobičnih smeštaja i objekata u svetu, i još dosta
toga što će sigurno probuditi Vašu maštu i kreativnost.*

Mašta je važnija od znanja.**Albert Ajnštajn**

Legends and myths have intrigued man since time immemorial.

Ever since we were young we pricked our ears breathlessly to listen to the stories of knights, urban legends, national heroes, in which love, courage, persistence, and wisdom triumphs over evil and all the bad things around us.

No wonder then that we all had a wish, at least secretly and just for a moment, to plunge into a fairy tale, far from reality and our everyday life; to return to the times of balls and kings; or to enkindle explorer's adventurous spirit in a mystic cave or an archaeological site. That is an experience we would certainly remember with excitement and a smile.

When organizing an event with the aim to create a unique and incomparable experience for the participants, an unusual and special venue or accommodation is required to invoke times and settings beyond reality we find ourselves in at that time, whether it be a journey into the past or the future, or just a simple rural environment which brings us back to nature and true values.

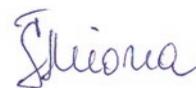

Companies and organizations require more and more distraction and motivation for their employees in order to progress and remain competitive. That is why requests are growing in search of unusual venues, so that events to remember could be created, and then the employees would recount their impressions and anecdotes over and over again for days.

In this issue of SEEbtm magazine we propose to you some ideas as to where you could realize in this region events to remember at unconventional venues, we also give you examples of some exceptional accommodations and facilities around the world, and much more to incite your imagination and creativity.

Imagination precedes knowledge.

DIREKTNI LETOVI DUBROVNIK - BEOGRAD

Od 20. juna ove godine ponovo se uvode direktni letovi između Dubrovnika i Beograda. Ponovno povezivanje ova dva grada se dešava tačno devetnaest godina nakon prekida

svih redovnih vazduhoplovnih linija između Srbije i Hrvatske. Prvi direktni letovi ove turističke sezone na liniji Dubrovnik - Beograd krenuće već krajem juna ove godine, a trajaće do početka septembra. Letovi će biti svakog ponedjeljka i srede. Sastanak direktora JAT-a i Croatia Airlines-a se očekuje uskoro, a nakon sastanka bi trebalo da se dobiju dodatne informacije vezane za novu vazduhoplovnu liniju Dubrovnik - Beograd - Dubrovnik.

NOVI TERMINAL OTVOREN NA AERODROMU OTOPENI U BUKUREŠTU

Henri Coanda Aerodrom blizu Bukurešta otvorio je novi terminal krajem marta. Druga zgrada terminala nazvana „Prst terminal“ ima 24 bording kapije, 14 bording mostova, 4 VIP salona i 104 prijavna pulta. Sa proširenim kapacitetom Aerodroma Bukurešt

Otopeni, očekuje se da će do 2012. godine biti 6 miliona putnika na aerodromu u Bukureštu, što je porast u odnosu na 4.5 miliona prošle godine.

Nova zgrada terminala u obliku violine sa „prstohvatom“ ideja je i rad italijanskog arhitekta koji je specijalizovan za projektovanje aerodroma.

DRUGO OKUPLJANJE KONGRESNE INDUSTRIJE REGIONA NA JEDNOM MESTU - SEEBTM PARTY 2011.

Drugo regionalno okupljanje kongresne industrije organizovano je 24. februara 2011. godine u PC Ušće u Beogradu. U organizaciji Asocijacije kongresne industrije jugoistočne Evrope, The Best Solutions-a, povodom

uspešne saradnje, a u cilju međusobnog povezivanja učesnika u kongresnoj industriji, ponuđača, kao i organizatora događaja, organizovana je „Žurka kongresne industrije regiona“ - SEEBtm Party. The Best Solutions je po drugi put svoje partnere ugostio na jedinstven i svakako nezaboravan način, čime je pokazao zahvalnost na podršci koju je od njih dobio tokom poslednjih pet godina saradnje. Kako je cilj kompanije razvoj kongresne industrije regiona, tako je i cilj SEEBtm Party-a da napravi odličan networking između učesnika u kongresnom i poslovnom turizmu svih zemalja u regionu - Srbije, Hrvatske, Crne Gore, Bosne i Hercegovine, Slovenije, Makedonije, Rumunije i Bugarske, i postavi platformu za dalju uspešnu saradnju.

SVETI STEFAN PONOVO OTVARA SVOJA VRATA ZA GOSTE

Prema očekivanjima, ovaj grad hotel naredne turističke sezone, nakon petogodišnje pauze zbog rekonstrukcije, treba da počne da radi u punom kapacitetu. Nedostaje još da se završi blok 25, što znači da će od početka naredne letnje turističke sezone biti u punom kapacitetu. Međutim, Sveti Stefan je nakon

višegodišnje rekonstrukcije već primio prve platežne goste. Ostrvo raspolaže sa 50 rekonstruisanih soba i apartmana visokog kvaliteta.

Što se tiče plaža, predsednik singapurske kompanije „Aman Resorts“, izjavio je da razume potrebu lokalnog stanovništva da koristi plaže na Svetom Stefanu, iako na taj način ne mogu biti ispunjena sva očekivanja i standardi na koje gosti računaju od strane Amana, a to je pre svega mir i tišina. Ali ako Vlada odluči da bude tako, poštovaće tu odluku. Predsednik ove singapurske kompanije je takođe saopštio, da će biti potrebne još dve godine da se usluga dovede na zadovoljavajući nivo.

PM PLUS RAZVIO SOFTVER SPECIJALIZOVAN ZA VOĐENJE KONGRESA

Profesionalni kongresni organizator PM plus je kongresni organizator u Srbiji koji je razvio sopstveni softver specijalizovan za vođenje kongresa, praćen novim sistemom rada i procedura koje su upotunjene korišćenjem savremenih informacionih tehnologija po ugledu na evropske kongresne tu-roperatore. Početkom 2011. godine PM plus je predstavio sistem pod nazivom „CPR System - Congress Planning and Registration System“ na kongresu „Dana defektologa 2011“ za koji je dobio brojne pohvale za inovaciju u oblasti kongresnog turizma. Ovaj projekat predstavlja skup drugačijih, preciznijih i automatizovanih procesa tokom planiranja, organizacije i registracije učesnika koji su ostvareni

korišćenjem bar kod tehnologija, a čime su ostvarene velike uštede u vremenu rada i tačnosti obrade podataka.

Razvoj CPR System-a u narednim fazama imaće prevashodni akcenat na same učesnike kongresa radi ostvarenja što kvalitetnijeg odnosa sa organizatorom, kao i olakšavanju obaveza koje učesnici imaju tokom kongresa. Očekivanja PM plus-a su da će ovim projektom, koji je tek počeo da se razvija, biti znatno podignut nivo usluga koje pružaju kongresni organizatori u Srbiji na nivo rada evropskih kongresnih organizatora i da će uskoro biti u mogućnosti da posredstvom savremenih informacionih tehnologija inostrane kongrese organizuje upravo u Srbiji.

KONGRES EVROPSKE ASOCIJACIJE ZA SRČANU INSUFICIJENCIJU 2012. GODINE U BEOGRADU

U jakoj konkurenciji najvećih evropskih metropola, poput Atine, Ženeve ili Budimpešte, glavnom gradu Srbije pripala je organizacija

prestižnog kongresa Evropske asocijacije za srčanu insuficijenciju, koji će se održati 2012. godine. Time je ukazano veliko priznanje srpskoj kardiologiji. Pored edukativne koristi, ovaj internacionalni sastanak ima i važan ekonomski efekat za Beograd, procenjen na oko pet miliona evra prihoda, a okupiće gotovo 5.000 evropskih i svetskih kardiologa. Za organizaciju ovog kongresa bila je zainteresovana 51 članica evropskog Udruženja kardiologa. Od 17 članova, svi su jednoglasno bili za to da Beograd bude domaćin. Ovo je jedan od najvažnijih kardioloških kongresa na kome se otkrivaju novi vidici, poboljšava stručno i kliničko znanje i saznaju odgovori na najaktuelnija pitanja iz kardiologije. Od posebne važnosti je aktivnost u oblasti proučavanja novih lekova za srčanu slabost, od čega su neke studije znatno poboljšale način lečenja obolelih. Bolesti srca i krvnih sudova u svetu, a posebno u Srbiji, najčešći su uzrok obolevanja i ubica broj jedan. Lečenje ovih bolesti je dugotrajno i skupo jer se radi o veoma teškom stanju.

KONFERENCIJA O AIDS-U U BEOGRADU

U organizaciji Evropskog kliničkog društva za HIV i sidu, u Beogradu će se od 12. do 15. oktobra 2011. godine održati trinaesta Evropska konferencija o HIV-u i sidi. To je najveća evropska stručna konferencija na kojoj će biti prezentovana istraživanja u oblasti bazičnih nauka kao što su virusologija, imunologija i farmakologija i na kojoj će biti predstavljeni rezultati najnovijih kliničkih istraživanja. Ovaj samit će okupiti između 4.000 i 4.500 doktora i farmakologa.

KONGRESI I SEMINARI U CRNOJ GORI - BUDVANSKA RIVIJERA

Aktivnosti u prirodi su sjajan način da se razodnodite i pobegnute od svakodnevice na poslu, bar na nekoliko dana, naročito ukoliko tokom meseca aprila krenete na jug. Korporativni tim bilding i zabavne aktivnosti, koje se često organizuju nakon godišnjih sastanaka ili strateških planiranja, postaju sve popularniji.

U prvoj polovini aprila Montenegro Adventures DMC (www.montenegro-adventures.com) je ugostio nekoliko korporativnih grupa na crnogorskoj obali, a jedna od njih se odlučila da za svoje osoblje organizuje dva i po dana tim bilding aktivnosti nakon godišnjeg sastanka.

Program je uključivao poludnevnu turu (Cetinje, Njeguši, Kotor), praćenu „U potrazi za blagom“ - tim bilding aktivnostima koje su se sastojale od šest različitih igara koje su organizovane na nekoliko lokacija u Starom gradu Budva i obližnjim plažama.

Narednog dana, tri tima su provela ceo dan uživajući u velikom broju aktivnosti i takmičenjima koja su organizovana na ostrvu Sveti Nikola, nadomak Budve, gde su gosti imali prilike da nauče ponešto i o nacionalnoj kuhinji, učestvujući u pripremi ukusnih jela koja su poslužena u senci borova pored same plaže na ostrvu.

35. KONGRES EVROPSKE RAČUNOVODSTVENE ASOCIJACIJE

Godišnji kongres Evropske Računovodstvene Asocijacije (EAA) je veliki događaj koji se svake godine tokom proleća održava u drugoj zemlji. Domaćin ovogodišnjeg

EAA kongresa, koji je održan od 9. do 11. maja 2012. godine, bila je prestonica Slovenije. Ovaj događaj nudi jedinstvenu priliku za predstavljanje istraživanja i pronalazačenja onoga što kolege iz oblasti menadžmenta i računovodstva rade. Svake godine više od 1.000 delegata prisustvuje ovom popularnom događaju i predstavlja se oko 800 radova. Osim toga, EAA godišnji kongres pruža prijateljski i društveni kontekst, gde se upoznaju kolege iz različitih zemalja, formulišu zajedničke istraživačke projekte i ostaju u kontaktu sa evropskim trendovima u obrazovanju i istraživanju.

15. MEĐUNARODNI SAJAM MALIH I SREDNJIH PREDUZEĆA, PREDUZETNIŠTVA I FIRMI U OSNIVANJU DOBOJEXPO 2011

40. EMAC KONFERENCIJA (EVROPSKA MARKETINŠKA AKADEMIJA)

Evropska marketinška akademija - EMAC je profesionalno udruženje čiji su ciljevi širenje informacija i promovisanje međunarodne razmene u oblasti marketinga.

EMAC je s toga organizovao godišnju konferenciju, koju su ugostili glavni univerziteti i naučni instituti širom Evrope. Na konferenciji je bilo prisutno oko 800 delegata. Konferencija se održala od 24. do 27. maja 2011. godine, na Ekonomskom fakultetu u Ljubljani. U vezi sa ovom konferencijom, doktorski kolegijum za studente marketinga se održao iste nedelje na istom mestu. U svetlu trenutnih tržišnih uslova i sa fokusom na bolju budućnost, glavna tema konferencije je bila „Dan Posle“ - Inspiracija, Inovacija, Implementacija. Trenutne klimatske i ekološke promene, društvene i kulturne raznolikosti, kao i finansijska i ekonomska kriza su preoblikovale današnje tržište.

Renovira se hotel Jugoslavija u Beogradu

Hotel Jugoslavija, jedan od najboljih primera novobeogradske moderne arhitekture, čeka rekonstrukciju koja će mu vratiti stari sjaj. Rekonstrukcija ovog hotela je vredna između 120 i 150 miliona evra, posle koje će postati deo lanca „Kempinski“. Osim kompletne obnove hotelskih kapaciteta, u planu je i izgradnja trgovinskog centra i stambeno poslovne kule od 33 sprata. Novi hotel Jugoslavija će imati 258 soba, umesto sadašnjih 500, što znači da će kapacitet praktično biti prepolovljen, a u korist kvaliteta. Život ljudi sa HIV-om

13. EVROPSKA KONFERENCIJA O AIDS-U

U Srbiji, u Beogradu, se 12. oktobra 2011. godine održava 13. Evropska konferencija o AIDS-u / EACS, uz očekivan broj od 3.500 delegata, koja će okupiti na jednom mestu vodeće kliničare i istraživače HIV-a u Evropi i svetu da bi razmotrili rezultate i pronalaskes na polju medicine HIV-a.

Evropska konferencija o AIDS-u, sa preko 3.500 učesnika iz celog sveta je najveća i najvažnija medicinsko-naučna konferencija u Evropi.

Većina evropskih lekara i naučnika, prezentacije i diskusija o tekućim istraživanjima na polju HIV medicine, kao i očekivana intenzivna razmena između naučnika, kliničara i predstavnika pogođenih grupa, činiće ovu važnu konferenciju.

Evropsko Kliničko društvo za AIDS (EACS - The European AIDS Clinical Society) je neprofitna grupa evropskih lekara, kliničara i istraživača na polju HIV/AIDS.

Osnovano je 1991. godine, sa ciljem da okupi naučnike iz cele Evrope kako bi se pomoglo pri razmeni najnovijih medicinskih i naučnih saznanja koja se tiču kliničkih aspekata HIV/AIDS i njegovih komplikacija.

Udruženjem trenutno predsedava Prof. Peter Reiss iz Holandije, sa Prof. Manuelom Battegayom iz Švajcarske kao potpredsednikom.

Glavne aktivnosti Društva su: organizacija Evropske Konferencije o AIDS-u, izdavanje smernica (publikacija) za lečenje, kao i obrazovanje i trening lekara koji se bave HIV-om.

Svake 2 godine EACS je domaćin jedne evropske konferencije u nekom većem evropskom gradu.

Prethodne konferencije su održane u: Kelnu – 2009., Madridu – 2007., Dublinu – 2005., Varšavi – 2003., Atini – 2001., Lisabonu – 1999., Hamburgu – 1997., Kopenhagenu – 1995., Milanu – 1994.,

Parizu – 1992. godine. Godine 2011. konferencija će biti održana u Beogradu u Srbiji.

Tom prilikom smo imali razgovor sa **Prof. Dr Peterom Reissom**, Predsednikom EACS-a, i **Prof. Dr Nathanom Clumeckom**, kopredsedavajućim na EACS Konferenciji.

1. Pandemija HIV-a jedna je od onih sa najvećim izazovima za medicinu. Možemo li da istaknemo neke od glavnih tema na predstojećoj 13. Konferenciji o AIDS-u?

Teško je izdvojiti bilo koju temu kojom ćemo se baviti na Konferenciji. EACS uvek pokušava da program konferencije odražava ceo spektar tema koje su važne za kliničko vođenje ljudi koji žive sa HIV-om.

Tu svakako spadaju napredak u antiretroviralnoj terapiji, u upravljanju komplikacijama HIV-a i u lečenju, uključujući pacijente u poodmakloj dobi, pitanja povezana sa koinfekcijom virusnim hepatitisom, kao i ona o HIV-u tokom trudnoće i kod dece.

Prof. Dr Peter Reiss, Predsednik EACS

Ove godine ćemo takođe uvrstiti i diskusije o upotrebi HIV terapije za predupređenje, kao i diskusije o mogućoj pojavi neurokognitivnih poremećaja kod naših uspešno lečenih pacijenata. Najzad, kao što EACS pokušava da učini na svakoj dvogodišnjoj konferenciji, istaći ćemo najnovije izmene u smernicama EACS-a za ljude koji žive sa HIV-om.

2. Još uvek postoji veliki broj zaraženih ljudi u Evropi koji uopšte ne znaju da su inficirani. Koje su moguće inicijative da se reši taj problem?

Zaista, činjenica da mnogi ljudi nisu ni svesni da su inficirani HIV-om jeste problem kako u Evropi tako i globalno. Ne može se očekivati da će bilo koja mera sama po sebi rešiti ovaj problem. Optimalna kombinacija mera verovatno će se razlikovati u zavisnosti od karakteristika epidemije (npr., da li je epidemija generalizovana ili se uglavnom pojavljuje u izvesnim rizičnim grupama; kakva je regionalna rasprostranjenost HIV-a, itd.) u pojedinoj zemlji ili oblasti. Mere koje se mogu razmotriti mogu ići od godišnjeg testiranja i povezivanja sa lečenjem i brigom o onima koji su identifikovani kao HIV pozitivni, ciljaujući cele populacije ili pojedine visoko rizične grupe.

Druga pomoćna opcija koja se razmatra, takođe i u Evropi, jeste povećanje testiranja od strane medicinske zajednice za ljude kod kojih su ustanovljene medicinske tegobe koje imaju povećanu verovatnoću da su povezane sa HIV-om (tako-

zvana indikatorska oboljenja) [više o ovome se može naći na www.hiveurope.eu]. Konferenciju će na otvaranju skupa obeležiti predavanje Prof. Sir Roya Andersona, koje će se najverovatnije baviti mnogim aspektima ovog pitanja.

3. Šta Vi očekujete od predstojeće Konferencije o AIDS-u? Koji su glavni ciljevi?

Važan cilj je, još jednom, da Konferencija obezbedi platformu za okupljanje naučnika, praktičara, kao i predstavnika iz zajednica ljudi koji žive sa HIV-om, da bi učili i da bi razmotrili skorašnja dostignuća, ali i dileme u vođenju ljudi koji žive sa HIV-om. Drugi cilj jeste da se mi uvek nadamo kako će, dovođenjem konferencije u neki određen grad, to biti prilika da se podigne svest za pitanja koja se tiču

HIV-a kako u gradu domaćinu, tako i u zemlji domaćinu i celom regionu.

4. Šta to grad Beograd ima, što je Va- ma bilo najvažnije, da bude domaćin ove značajne Konferencije?

Grad Beograd je odabran za mesto održavanja Konferencije na osnovu snažnog bidovanja (davanja ponude) i izražene želje lokalnih naučnih predvodnika (dr Đorđe Jevtović i dr Gordana Dragović) da budu domaćini ovog događaja.

Pored toga, uprava EACS smatrala je pogodnim da pokuša i da dovede Konferenciju još jednom u istočnu Evropu, posle izuzetno uspešnog sastanka u Varšavi 2003. godine i u međuvremenu tri konferencije u tri različita grada koji se nalaze više u zapadnom delu Evrope.

Every 2 years EACS hosts a European conference held in a major European city. Previous Conferences was held in: Cologne – 2009, Madrid – 2007, Dublin – 2005, Warsaw – 2003, Athens – 2001, Lisbon – 1999, Hamburg – 1997, Copenhagen – 1995, Milan – 1994, Paris – 1992.

In 2011 the conference will be held in Belgrade, Serbia. On this occasion, we had honour to speak with **Prof. Dr Peter Reiss**, EACS President and **Prof. Dr Nathan Clumeck**, EACS Conference Co-Chair.

1. The HIV pandemic is one with the greatest challenges in medicine. Could we highlight some main topic on the coming 13th AIDS Conference?

It's really hard to single out any particular topic which will feature at the Conference. EACS always tries to have the conference program reflect the whole range of topics which are important in the clinical management of persons living with HIV.

These of course include advances in antiretroviral therapy, in the management of complications of HIV and its treatment including in patients getting older, issues around viral

WELCOME MESSAGE

It is our great pleasure to invite you to Belgrade to attend the 13th European Conference/EACS which is being organised under the auspices of the European AIDS Clinical Society. We will strive for the conference to offer an exciting scientific programme, composed of a well-balanced mix of plenary lectures as well as abstract-driven sessions presenting the latest original research in the field of HIV medicine.

The conference also provides the opportunity to highlight any issues particularly relevant to the HIV epidemic in Serbia and the larger Southeastern European region.

One of the important goals of the EACS in organising this biannual European conference is to promote an interest in HIV clinical research amongst young researchers/clinicians from across Europe at an early stage in their career. Therefore, we would particularly like to encourage junior researchers to submit results from their scientific work to the conference and also use it as a venue for networking with colleagues in the field.

We look forward to seeing you in Belgrade in October 2011!

hepatitis coinfection, as well as HIV in pregnancy and children.

This year we shall also include discussions of the use of HIV therapy for prevention and discussions on the possible emergence of neurocognitive disorders in our successfully treated patients.

Finally, as EACS attempts to do at each biannual Conference, we shall highlight the most recent changes in the EACS guidelines for the management of persons living with HIV.

2. There is still large number of infected people in Europe who know nothing about their infection. What are possible initiatives for solving this problem?

Indeed the fact that many people are not aware of being HIV infected is a problem both in Europe and globally. No single measure can be expected to solve this problem. The optimal mix of measures is likely going to be different

depending on the characteristics of the epidemic (e.g. is the epidemic generalized or mainly occurring in certain risk groups; what is the regional

prevalence of HIV; etc) in a particular country or region. Measures which may be considered could range from annual testing and linking to treatment and care of those identified as HIV positive, targeting either whole populations or particular groups at high risk.

Another ancillary option which is being considered, including in Europe, is to increase testing by the medical community when persons present with medical conditions which have an increased likelihood of being associated with HIV (so-called indicator diseases) [more information about the latter can be found at www.hiveurope.eu].

The Conference in its opening session will feature a lecture by Professor Sir Roy Anderson which is likely to address many aspects of this topic.

3. What do you expect from coming AIDS conference? What are the main goals?

An important goal once again is for the Conference to provide a platform

for scientists, practitioners as well as representatives from the community of persons living with HIV to come together and be educated on, and discuss recent advances as well as dilemmas in the management of persons living with HIV.

Another goal is that we always hope that by bringing the Conference to a particular city, it will provide an opportunity to raise awareness for issues concerning HIV both in the host city, the host country and the region.

4. What city of Belgrade have, that was the most important for you, to be host of this significant conference?

The city of Belgrade was selected as Conference venue based on the strong bid the local scientific leadership (Drs Djordje Jevtovic and Gordana Dragovic) made to want to host the meeting.

In addition, the EACS leadership felt it was appropriate to try and bring the Conference once again to one of the Eastern parts of Europe, following the highly successful meeting in Warsaw in 2003 and the three intervening meetings in three different cities in the more Western part of Europe.

Uloga neobičnih prostora

DOGAĐAJI KOJI SE PAMTE

Jedinstven, nezaboravan, neponovljiv, fenomenalan, originalan... to su opisi koje svaki event menadžer želi da čuje za svoj događaj.

Jedinstven i originalan je onaj događaj na kojem uspemo da zaboravimo na svakodnevnicu i realnost, da putujemo u prošlost ili u budućnost, ili prosto na mesta i okruženja koja nam nisu lako dostupna i koja ne čine deo naših svakodnevnih mogućnosti.

Neobični i specijalni prostori ovde igraju veoma značajnu ulogu. Bilo da su u pitanju istorijske građevine, zamkovi, palate, tvrđave, pećine, ili pak teže dostupne lokacije i ostrva.

U ovom broju SEEbtm magazina sproveli smo anketu vezanu za pitanje koliko u regionu Jugoistočne Evrope postoji potreba za ovim prostorima i koliko je ta potreba zadovoljena. Svakako potreba za ovakvim prostorima govori i o stepenu razvijenosti event menadžmenta, obzirom da je težnja za organizacijom neponovljivog događaja na višem nivou u odnosu na osnovnu organizaciju događaja (koja se nažalost, vrlo često, šablonski sprovodi) u kojoj je bitno da se pojave učesnici, održi neki govor ili predavanje i nakon toga svi razidu, bez nekog specijalnog utiska ili onoga što će im sa zadovoljstvom ostati u pamćenju. Menadžment na višem nivou zahteva događaje koji se pamte.

Učesnici ankete su bile agencije iz regiona koje se bave organizacijom

događaja. Na pitanje koliko često od klijenata imaju zahtev za organizacijom događaja u neobičnim prostorima, 35% ispitanih je odgovorilo da imaju veoma često i oko 40% zahteva uključuje tražnju za nekim neobičnim prostorom. Ostalih 65% ispitanih je odgovorilo da nemaju takvih zahteva ili ih imaju malo, a do 20% svih zahteva. Ipak, na osnovu rezultata, evidentno je da je ovaj trend u porastu, i da agencije sve češće imaju zahteve za ovom vrstom prostora, što i logično ide sa razvojem kongresne industrije. Mišljenja agencija o tome da li našem regionu nedostaju neobični i specijalni prostori ili ih ima dovoljno su po-

deljena. Približno polovina ispitanih smatra da ih nema dovoljno, a druga polovina da ih ima dovoljno, obzirom na potražnju. Uglavnom se svi slažu da bi trebalo edukovati klijente o pozitivnom utisku neobičnog prostora, i da bi u suštini, oni trebalo da budu ti koji će dati ideju klijentu za organizaciju ovakvih specijalnih događaja.

Postoje ideje i da Turističke organizacije svakog grada porade na tome i izvide prostore koji bi se povremeno mogli adaptirati za specijalne događaje. Određene agencije smatraju da ima dovoljno inspirativnih prostora, i da je uglavnom dovoljna dobra ideja organizatora - agencije i dobra volja klijenta da se bilo koji prostor iskoristi na originalni način. Agencije ističu i problem dobijanja dozvola, saglasnosti, pronalaženje titulara nekih specijalnih prostora i sl.

Neobični prostori u kojima su učesnici ankete organizovali događaje su raznovrsni. Navešćemo neke od njih.

Gulliver travel iz Dubrovnika ističe događaje na nenastanjenom ostrvu i u pećini, dok agencija **ADRIA D.M.C.** iz Budve ističe venčanje na ljupkom ostrvu Gospa od Škrpjela, zatim ugođaj na selu, gde se pred gostima peče rakija i kuva vino, kao i izlet - razgovor u staroj, porodičnoj kući sa potomci-

Zamak Peralada, Costa Brava, Španija

ma plemićke familije iz Boke Kotorske. **CRAFT Marketing d.o.o.** iz Subotice je organizovao press konferenciju u autobusu GSP-a (gradski prevoz). A neobične događaje su organizovali i u većnici gradske kuće, na trgu (korzo) u centru grada. **HRG Serbia & Montenegro** iz Beograda su specijalne događaje organizovali na Belom dvoru, u gimnaziji u Sremskim Karlovcima, sali Predsedništva, na ulici prilikom svečanog otvaranja jedne zgrade i sl. **New Media Ideas** iz Beograda kao

najneobičnije zahteve koje su imali od nekog klijenta navodi team building sa kostimima, veštačkom paučinom i veštačkom vatrom u kombinaciji sa alkoholnim pićem, a kao najinteresantniji prostor - jednu vilu na Voždovcu u Beogradu. Pastirska staja je najneobičniji prostor u kojem je **Pac sports & Hostel pod Voglom** sa Bohinjskog jezera organizovao neki događaj, dok iz **SKILLS**-a iz Beograda ističu event na nezavršenoj zgradi.

Smeštaj o kome se priča

Tražnja za putovanjima postaje sve zanimljivija.

Savremeni turisti više ne biraju samo egzotične destinacije za odmor. U novije vreme raste tražnja za drugim vrstama smeštaja, koji će ponuditi jedinstven i neponovljiv doživljaj.

Evo i nekoliko primera iz sveta za nezaboravna iskustva:

U okolini Amsterdama izgrađen je hotel za one koji žele da „žive na visini“, pod nazivom „Harbur Krejn“.

Ovaj hotel nastao je 2003. godine adaptacijom masivnog kрана.

Sobe sa nalaze na visini od 60 stopa, a najneverovatnije u čitavoj ponudi je to što posetioци mogu da uđu u centralnu kabinu kрана i zarotiraju svoju sobu za čitavih 360 stepeni.

U Austriji je nastao hotel koji predstavlja spoj jednostavnosti i reciklaže.

Das Park Hotel sastoji se od betonskih odvodnih cevi, od kojih su napravljeni mini apartmani.

U „sobi“ se nalazi bračni krevet, prostor za odlaganje odeće, osvetljenje, vuneni prekrivač i vreća za spavanje.

Ostali prateći sadržaji - toalet, restoran - smešteni su po okolnim javnim mestima.

Što se plaćanja tiče, ovaj hotel radi po principu - plati koliko želiš, a važeća valuta je evro.

Hotel Everland je, kao što mu i samo ime nagoveštava, jedinstven po tome što uvek možete da odsednete u ovom hotelu, ali ne i da ostanete u istom gradu. Na svakih nekoliko meseci ovaj objekat biva premešten u drugi grad.

Poslednji grad domaćin ovog hotela je bio Pariz. Posle Pariza, Hotel Everland se vratio u rodnu Švajcarsku i od tada ne planira da menja destinaciju uskoro. U okviru hotela se nalazi samo jedna soba uređena poput ultramodernog apartmana sa jednim džinovskim krevetom i jednim kupatilom.

Na istoku Kine gradi se 150 metara visok hotel, u obliku reketa za stoni tenis. Jedinstveno zdanje koje će biti sagrađeno za pet godina, biće deo novog sportskog kompleksa u gradu Huainanu.

Planirano je da vrh hotela sa vidikovcem bude u obliku drške reketa, u središnjem delu da se nalaze sobe za goste, a u podnožju prostorije za konferencijske sadržaje. U planu je i da pored reketa bude napravljena i loptica za stoni tenis.

I tu nije kraj. U sportskom kompleksu bi tokom narednih godina trebalo da niknu objekti u obliku lopti za fudbal, košarku i odbojku.

Za prave ljubitelje neobičnog smeštaja, aviona i visine, tu je hotel - avion Luxe Hotel Suites - Airplane Suite, na aerodromu „Teuge“ u Holandiji.

Ovaj neobičan hotel - avion nudi luksuzan smeštaj u potpuno opremljenoj kabini, dugačkoj blizu 40 metara, gde možete da se osećate kao sopstveni pilot. Sa avionskog sedišta, pruža se fantastičan pogled na aerodromsku pistu.

Gosti takođe mogu da rezervišu vožnju avionom ili helikopterom, skakanje padobranom, ali i časove letenja za sve one koji žele da se vinu u visine i osete nalet adrenalina u krvi.

Ono što boravak ovde čini komfornim i luksuznim jesu sauna, đakuzi, mini-bar, flat televizori, besplatan bežični internet i još mnogo toga.

Unusual venues and their role

EVENTS ONE REMEMBERS

Unique, unforgettable, inimitable, phenomenal, original... those are descriptions that each event manager wants to hear about his or her own event.

A unique and original event is the one that makes us forget about everyday reality, that enables us to travel into the past or future or simply to places and surroundings which are not easily accessible to us, and are not a part of our regular life.

Unusual and special venues play a particularly important role here, whether it is the case of historic edifices, castles, palaces, fortresses, caves or some hard to reach locations or islands. In this issue of SEEbtm magazine we conducted a poll related to the question of how much is there a need for such venues in the region of southeast Europe and how much is that need satisfied. The need for such venues surely tells us about the degree of development of the event management, as the attempt to organize an unique and unforgettable event at a higher level compared to the basic organization of an event (which is, unfortunately, quite often executed in a cliché way), when it is only essential to ha-

Sports In Unusual Venues:

est for the organization of an event in unusual venues by their clients, 35% of respondents answered that such requests are rather frequent, with about 40% of requests involving a need for an unusual venue. The remaining 65% respondents answered that they didn't have such requests or that they are quite rare, up to 20% of all requirements. Still, judging by these results, it is evident that the trend is rising and that the agencies have more and more requests for such sort of venue, which goes together with the development of meetings industry.

The opinions given by the agencies vary as to whether our region lacks unusual and special venues or if there is enough of such venues around. Approximately one half of respondents are of the opinion that there are not enough of such venues, and the other half thinks those are sufficient considering the demand. Generally, all agree that clients should be educated about the positive impression the unusual venues offer, and that in fact they should be the ones who would propose the idea of organizing such special events to a client.

There is also an idea that the tourist

organizations in each town should start doing something about it and begin to search for venues that could be adapted for special events from time to time. Certain agencies consider there is enough of inspiring venues, and that a good idea by the organizer-agency along with a good will on the part of the client is mainly all it takes to use any sort of space in an original way.

The agencies also emphasized the problems related to acquiring permits and clearances or those in connection to finding proper owners of certain special venues.

Unusual venues where the poll participants organized their events are varied. We shall cite some of those.

Gulliver travel from Dubrovnik pointed out events on an uninhabited island and in a cave, and the **ADRIA D.M.C.** agency from Budva singled out a wedding on the charming island of Gospa od Škrpjela, the experience in the countryside where guests are present at brandy distilling and wine brewing, and a junket – meeting with descendants of a noble family from Boka Kotorska in their old stately home.

First underwater cabinet meeting was held by the government of Maldives in 2009

ve the participants gathered, a speech or lecture is delivered, and then everybody goes his own way, with no particular impression or anything that they could keep in memory. Management at a higher level requires events one will remember.

The poll participants were the regional agencies specialized in organizing events (PCO/DMC/Event and marketing agencies).

Asked how often do they have a requ-

CRAFT Marketing d.o.o. from Subotica organized a press conference in a city transport bus. Some unusual events were also organized by the City Hall deputies in a square (the Strip) in the very centre of the city. **HRG Serbia & Montenegro** from Belgrade organized special events in the White Palace, in the High school in Sremski Karlovci, in the Presidency Hall, in the street on the occasion of opening a building, and similar. **New Media Ideas** from Belgrade cited a costumed team bu-

ilding, with synthetic cobweb and artificial fire, combined with strong beverages, as an unusual request they received from their client, and the most interesting setting was – a villa in Voždovac, Belgrade.

A shepherd's barn is the most unusual venue where **Pac sports & Hostel pod Voglom** from Bohinj Lake organized an event, while **SKILLS** from Belgrade pointed up an event in an unfinished building.

Accommodation talked about

Request for travels is becoming more and more interesting. Modern tourists chose not only exotic destinations for their holidays. The requests for other sorts of accommodation are increasing lately, as it offers a unique and unrepeatable experience. Here are some examples of unforgettable experiences from around the world:

A hotel called "Harbour Crane" for those who want to "live at high level" was built in the vicinity of Amsterdam.

The hotel was erected in 2003 after a massive crane was adapted.

The rooms are at height of 60 feet, and the most amazing thing about this offer is that the guests can enter the central crane booth and rotate their own room for the complete 360 degrees.

In Austria there is a hotel which represents a blend of simplicity and recycling.

Das Park Hotel is composed of concrete sewerage pipes out of which mini suites are constructed.

The "room" contains double bed, clothes closet, electrical fittings, woollen covering, and a sleeping bag.

Other amenities – restrooms, a restaurant – are located in nearby public premises.

As for payment, the hotel operates on "pay as you wish" basis, and the valid currency is Euro.

Hotel Everland, as its name indicates, is unique as you can always stay at the hotel, but not stay in the same town. Every few months the facility is moved to another city. Paris was the last host destination for Hotel Everland. After Paris, Hotel Everland travelled back to Switzerland and there are no additional destinations planned.

The hotel contains a single room arranged as an ultra-modern suite with one giant bed and one bathroom.

A 150-metre high hotel is under construction in the east of China, shaped as a table tennis racket.

This unique building, which will be completed in five years, will be part of the new sports compound in the town of Huainan.

The design plans for the top of the hotel with a belvedere to be in the shape of a racket handle, the middle part will contain guest rooms, and the ground floor will house conference halls. The design also plans a table tennis ball to be built beside the racket. And that is not all. In the forthcoming years the sports centre will also encompass facilities shaped like a soccer ball, basket and volley balls.

For the true lovers of unusual accommodation, planes and altitudes, there is a hotel – airplane Luxe Hotel Suites - Airplane Suite, at the „Teuge“ airport in the Netherlands.

This unusual hotel-airplane offers luxury accommodation in a fully equipped 40-odd metres long deck cabin, where you can feel as your own personal pilot. There is a grand view onto the airport runway from the airplane seat.

Guests can also book a ride on a plane or helicopter, they can jump with a parachute or take flying lessons for those who want to soar in the air and feel the adrenalin rush in their blood. What makes the stay comfortable and luxurious are the sauna, Jacuzzi, mini-bar, flat television sets, wireless internet free of charge, and many more.

NETWORKING (UMREŽAVANJE) NA KONFERENCIJAMA

Voleo bih da je mene neko uputio u tehnike „networking-a“ pre toliko godina, kada sam počinjao da odlazim na konferencije. Kao i većina nas, vremenom sam se naučio. A čak i sada, kao većina ljudi, još uvek se pomalo unervozim kad ulazim u prostoriju sa 200 ljudi koje ne poznajem, opremljen samo čašom vina, radi seanse umrežavanja na kraju konferencijskog dana.

Autor: Rob Davidson

Jedna od onih prezentacija u kojima najviše uživam jeste: Kako se umrežavati na konferencijama.

Govorim o tome kako započeti konverzaciju sa drugim delegatom, kako susresti ljude koje hoćete da sretnete i kako preći sa jedne konverzacije na drugu.

Voleo bih da je mene neko uputio u tehnike „networking-a“ pre toliko godina, kada sam počinjao da odlazim na konferencije. Kao i većina nas, vremenom sam se naučio.

A čak i sada, kao većina ljudi, još uvek se pomalo unervozim kad ulazim u prostoriju sa 200 ljudi koje ne poznajem, opremljen samo čašom vina, radi seanse umrežavanja na kraju konferencijskog dana.

Hoću li završiti stojeći sam sa čašom vina u ruci, dok se svi oko mene uspešno upoznaju?

Ne, verovatno neću – jer je većina ostalih delegata u istom sosu i vrlo su voljni da započnu konverzaciju sa nekim drugim koji ima dovoljno zajedničkih interesovanja da bi prisustvovao istoj konferenciji.

Sa svim ovim pričama o virtualnim konferencijama, tele-konferencijama, video-konferencijama i tome slično,

umrežavanje je jedina korist koju mogu da pruže samo događaji licem-u-lice. A znamo da je, za mnoge ljude, osnovna motivacija da se prisustvuje nekoj konferenciji – da se naprave novi poslovni kontakti tokom seansi umrežavanja; da pronađu osobu s kojom bi radili na nekom istraživanju, na primer; ili da bi počeli regrutovanje nekog novog člana osoblja; ili čak da bi našli nov posao – sve te stvari mogu započeti na seansi umrežavanja neke konferencije.

I zbog toga moramo neprestano da promovišemo „networking“ kao element konferencije, kao našu Jedinstvenu Prodajnu Tačku. Zbog toga, takođe, moramo biti još profesionalniji i maštovitiji kada se radi o planiranju tih seansi umrežavanja.

Koliko ja mogu da tvrdim, za sada, planiranje jedne seanse umrežavanja ne ide mnogo dalje od prostog stavljanja čaše nekog alkohola u šake delegata da bi se zatim sprovedli u neku prostoriju gde su prepušteni samima sebi.

Sve veći je problem sa ovakvim pristupom: sva istraživanja pokazuju da je Generacija Y, ova nedavna družba mladih profesionalaca koji su se uključili u radnu snagu, daleko manje pouzdana od prethodnih generacija

u komunikaciji licem-u-lice. Naravno, svi su oni vrlo vešti u elektronskoj komunikaciji: blog-ovanje, Skype-ovanje, Tweet-ovanje, itd., itd., sa ljudima širom planete. Ali kad dođe do umrežavanja licem-u-lice, potrebna im je pomoć. Potrebno im je malo više strukture, zapravo. Za njih se umrežavanje mora preobrnuti u igru.

Na primer, evo jedne ideje koja mi je pala na pamet tokom jedne konferencije u Holandiji pre par godina: na kraju dnevnih događanja, sve su nas sakupili u jednoj prostoriji radi seanse umrežavanja.

Ali nam je ovog puta pruženo više nego samo čaša Pinot Grigio-a. Na ulazu u prostoriju svima nam je data ili matica ili zavrtanj. Svi su bili raznih veličina, a izazov je bio pronaći osobu u sobi čiji zavrtanj paše na vašu maticu (bilo je i nagrada za ljude koji su našli svog „parnjaka“). Bilo je zabavno, a to je izuzetno delotvoran način razbijanja leda i okuraživanja delegata da razgovaraju sa nepoznatim ljudima, a ne da se drže onih koje već poznaju.

Mislim da planeri konferencija moraju ubuduće biti kreativniji u organizovanju tih seansi umrežavanja. Budućnost kongresne industrije može od toga zavisiti.

NETWORKING AT CONFERENCES

I wish someone had instructed me in networking techniques all those years ago, when I started going to conferences. Like most people, I picked it up as I went along. And even now, like most people, I still get a little nervous walking into a room of 200 people I don't know, equipped only with a glass of wine, for the networking session at the end of a day's conferencing.

By Rob Davidson

One of the presentations I enjoy giving the most is: How to Network at Conferences. I talk about how to start a conversation with another delegate, how to meet the people you want to meet, and how to move on from one conversation to another.

I wish someone had instructed me in networking techniques all those years ago, when I started going to conferences. Like most people, I picked it up as I went along. And even now, like most people, I still get a little nervous walking into a room of 200 people I don't know, equipped only with a glass of wine, for the networking session at the end of a day's conferencing. Will I end up standing alone with my solitary glass of wine, while everyone else is networking successfully all around me? No, I probably won't - because most of the other delegates are in the same boat, and are very willing to start a conversation with someone else who shares their interests enough to be at the same conference.

With all this talk of virtual conferences, teleconferencing, videoconferencing and so on, networking is the one benefit that only face-to-face events can offer. And we know that, for many people, it's their main motivation for attending conferences - to make new business contacts during the networking sessions; to find someone to work with on a piece of research for example; or to start recruiting a new member of staff; or even to find a new job - all of these things can start at a conference's networking session.

And that's why we need to constantly promote the networking element of conferences as our Unique Selling Point. That's also why we must get more professional and more imagina-

tive when it comes to planning these networking sessions.

As far as I can tell, for now, planning a networking session doesn't go much further than simply putting a glass of something alcoholic in the delegate's hand and then ushering them into a room to fend for themselves. There's a growing problem with this approach: all the research shows that Generation Y, the most recent cohort of young professionals to enter the workforce, are far less confident than preceding generations at face-to-face communication. Of course, they are all very skilled at electronic communication: blogging, Skype-ing, Tweeting etc, etc with people all over the planet.

But when it comes to face-to-face networking, they need help. They need a bit more structure, in fact. Networking must be turned into a game for them. For example, here is an idea I came across at a conference in the Netherlands a couple of years ago: at

we were each given either a nut or a bolt. They were all of different sizes and the challenge was to find the person in the room whose bolt fitted your nut (there were prizes for the people who found their 'match'). It was fun and it was an extremely effective way of breaking the ice and encouraging delegates to speak to new people, rather than sticking with those they already knew.

the end of the day's proceedings, we were all steered into a room for the networking session. But this time, we were given more than a glass of Pinot Grigio. At the entrance to the room,

I think conference planners need to be more creative in how they organize these networking sessions, from now on. The future of the conference industry may depend on it.

VREDNOST MOBILNIH APLIKACIJA ZA POSLOVNE SASTANKE

MICE profesionalci i oni koji prisustvuju sastancima prelaze jaz između ranog prihvatanja i sada ulaze u fazu većine. Videćemo veoma brzo prihvatnje mobilnih aplikacija za događaje tokom sledeće dve godine.

Korbin Bol, CSP, MS

Nedavni podaci iz Studije „FutureWatch 2011“ MPI-a i drugih ukazuje da više od 80% MICE profesionalaca koristi smart telefone i druge mobilne naprave u svom poslu. Ipak, i pored ovakvog rasprostranjenog prihvatanja, relativno mali broj njih je do sad koristio mobilne aplikacije na svojim sopstvenim sastancima. To će se uskoro promeniti.

MICE profesionalci i oni koji prisustvuju sastancima prelaze jaz između ranog prihvatanja i sada ulaze u fazu većine. Videćemo veoma brzo prihvatnje mobilnih aplikacija za događaje tokom sledeće dve godine.

Postoje mnogi načini na koje mobilne aplikacije mogu poslužiti tokom događaja. Evo nekih primera upotrebe mobilnih aplikacija za događaje i sajmove:

- Program za Upravljanje, izradu i podelu dnevnog red a učesnicima
- Upozorenja / slanje poruka tokom konferencije / obaveštenja
- Analitika (praćenje interesovanja i aktivnosti prisutnih delegata radi poslovnih informacija)
- Ugovaranje sastanaka za delegate
- Distribucija liste učesnika
- Anketiranje publike

- Informacije o kućnom redu i lokalnoj sredini
- Program i raspored predavanja na konferenciji
- Distribucija sadržaja – zamena papira (leci o sastancima, beleške o kursu, literatura vezana za događaj)
- Distribucija sadržaja – video (YouTube, striming mediji konferencije)
- Zamena za internet kafee
- Ocenjivanje govornika, predavanja-sesija, opštih aktivnosti oko konferencije i drugih aktivnosti / usluga
- Izloženi vodič sa interaktivnim planom postavke
- Pristup hibridnim i virtualnim sastancima
- Marketing i reklamiranje događaja i pod-događaja
- Upravljanje logistikom sastanka dok ste na licu mesta (uključujući upravljanje učesnika, upravljanje smeštajem, praćenje budžeta, specifikacije sastanka, i praćenje troška sastanka)
- Upravljanje članstvom
- Slanje poruka za događaj (SMS, e-mail, grupna obaveštenja, itd.)
- Umrežavanje / društveni mediji / nalaženje prijatelja (vezano za događaj i sredinu)
- Prodaja proizvoda i robe sa mogućnošću mikroplaćanja
- Registracija
- Stvaranje povratne dobiti od izlagača, sponzora i lokalnih poslovnih oglašavača
- Mobilne tim bilding aktivnosti tokom događaja
- Ugovarač priredbe / snabdevač komunikacija i logistike
- Lista provere pri inspekciji mesta događanja
- Integracija društvenih medija na licu mesta (Facebook, LinkedIn i Twitter)

- Prihod od oglasa sponzora
- Pregledi
- Kontrola karata i pristupa
- Praćenje tranzita (praćenje letova, vremena železnice, itd.) i drugih mogućnosti poslovnog putovanja
- Potraga za blagom i druge igre kako bi se stimulisao protok ljudi u sajamskim halama
- Nalaženje puta i mapiranje (kroz sajamske hale, mesta događanja, obližnje atrakcije, grad)

Osim ovih odlika, međutim, postoje i mnoge opipljive koristi koje će mobilna tehnologija doneti za organizatore događaja, izlagače i prisutne. Evo samo nekih:

Distribucija i pristup svim konferencijskim informacijama u realnom vremenu (real - time)

Papirni programi konferencije, vodiči za izložbe i saopštenja zastare skoro istog časa pošto su odštampani - konferencije su fluidne a stvari se menjaju! Mobilni vodiči i druge konferencijske informacije mogu se menjati na brzinu a osigurati da pri-

sutni imaju trenutni pristup tekućim informacijama na način koji je brži, jednostavniji i lakši za pristupanje. Event menadžeri takođe mogu slati informacije o značajnim izmenama programa.

Bolje pronalaženje puteva uz interaktivne mape, planove spratova i usluge na lokaciji

Prisutnima je često potrebna pomoć pri snalaženju na samom mestu događanja, u izložbenoj sali ili u okruženju gde se održava sastanak.

Postoji niz alata za mapiranje i GPS koje mogu pomoći. Neke od naprednih mobilnih izložbenih aplikacija (kao što su Core-Aplikacije.com i Sherpa-Solutions.com) mogu čak tačno pokazati lokaciju na kojoj se nalazi posetilac u izložbenoj sali i voditi ih kroz salu nalazeći najefikasniji put između izložbenih štandova.

Kao dodatak ovome biće aplikacije za uvećanje realnosti (kao što je Google Goggles) koje će prikazivati dodatne informacije na ekranima telefona ili kamerama prostim usmeravanjem telefonske kamere na mesta o kojima posetilac želi da zna više informacija.

Usklađenost sa sredinom

Događaji se obično guše u papirima: programski vodiči, leci o seansa, beleške o kursovima, izložbeni priručnik, izložbene brošure, pregledi, specifikacije događaja, i tome slično.

Ovim se dokumentima lakše pritupa preko mobilnih platformi.

Sa naglim povećanjem broja iPadova i drugih uređaja, ljudi će takođe moći da beleže primedbe na ovim dokumentima.

Dokumenti na mobilnim aplikacijama su laganiji, lakši za upotrebu, brže im se pristupa, ne košta ništa da se štampaju / šalju i daleko su usklađeniji sa životnom sredinom nego papirni dokumenti.

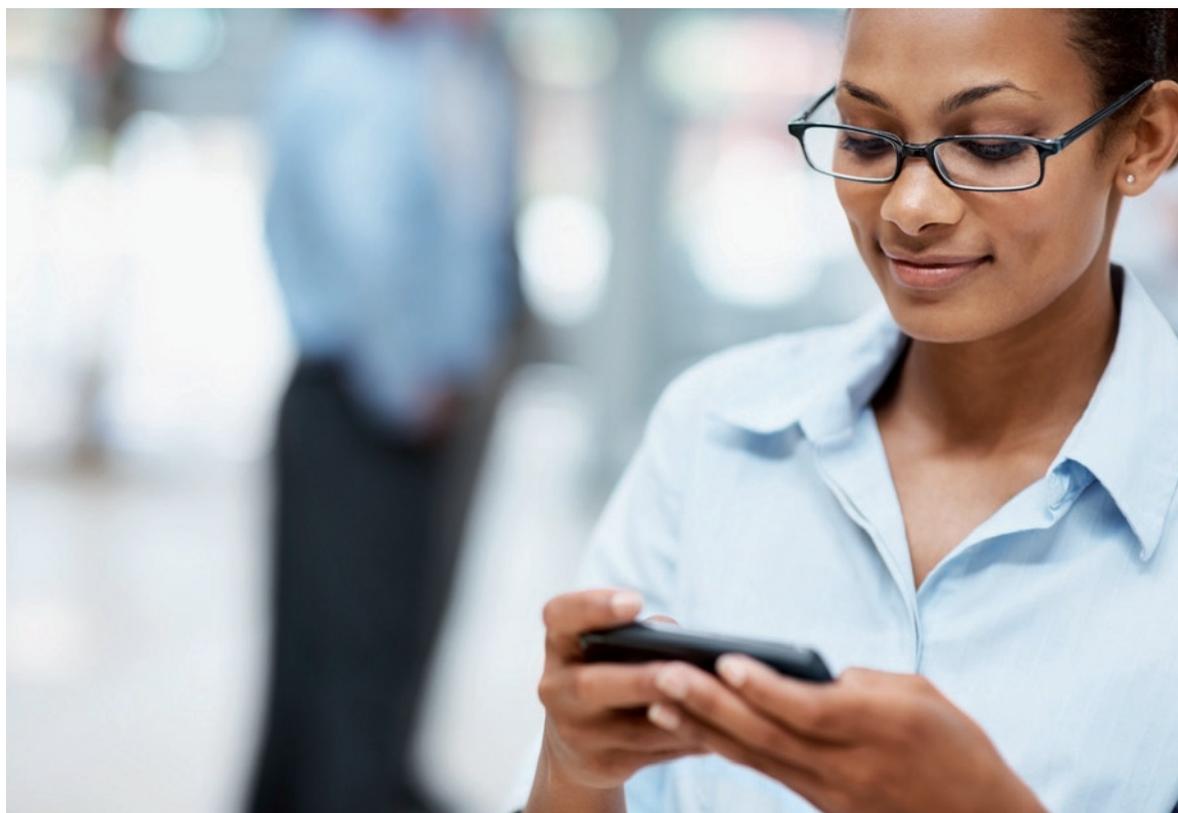

Poboljšano umrežavanje na licu mesta

Mobilne aplikacije za društveno umrežavanje (aplikacije specifične za kongresni turizam, kao što su Pathable.com i Dub Events), tri velika sajta za društveno umrežavanje (Facebook, Twitter i LinkedIn) i aplikacije koje poznaju lokaciju (kao što su Foursquare, Gowalla i Facebook Places) pružaju

Mobilne aplikacije imaju mogućnost da prate broj pregledanja stranica i druge aktivnosti prisutnih. Neke mobilne aplikacije obezbeđuju proširenu analitiku podataka o ponašanju prisutnih, što može biti od neprocenjive vrednosti za poboljšanje budućih događaja. Podaci o pregledanju stranica u pogledu pojedinih izložbenih proizvoda mogu takođe biti veoma značajni za izlagače, jer obezbeđuju povezanost sa prisutnima koji su posebno zainteresovani za neki proizvod ili uslugu.

potpuno nove kanale za umrežavanje učesnika događaja. Jedan dobar kontakt može često biti vredan koliko i ukupna cena sastanka, a ove alatke pomoći će da se ljudi zbliže kako bi napravili te kontakte.

Isto tako, upućeni organizatori događaja kao i menadžeri event prostora sada nadziru protok tweet-ova oko događaja (Twitter komentari u vezi nekog određenog događaja) jer je to

najbrži način da budu obavješteni o nekom problemu tokom događanja.

Povratne informacije u pravom vremenu putem pregleda i anketiranja

Papirne ankete/ocene za govornike i procenu sastanka zahtevaju trud da se zbrajaju - toliko da se to često radi posle događaja.

Pregledi zasnovani na Mreži a poslani putem email veza takođe se često šalju posle događaja. U oba slučaja, dobijeni podaci kasne da bi se načinila ispravka u hodu tokom događaja.

Mobilni pregledi se automatski zbrajaju pravovremeno dok je informacija sveža. Ako susret ne bude uspešan, ili ako dođe do drugih problema, imate priliku za ispravke tokom preostalog vremena sastanka koristeći ove povratne informacije tokom konferencije.

Tastature za anketiranje publike, ma da su vrlo korisne alatke za povratnu informaciju, prilično su skupe (3-12 dolara po osobi na dan). Kako se u prostor ubacuju mobilne aplikacije za anketiranje (kao što su PollEverywhere.com, Validar.com, Zukuweb.com, i druge), prisutni mogu da upotrebe svoje telefone da bi glasali ili odgovorili na pitanja govornika putem tekstualnih poruka, mobilnih mrežnih anketnih alatki ili čak Twitter-om.

Pored toga, postoji mogućnost da pošaljete pitanje govorniku, dozvoljavajući da prisutni članovi, koji nisu 'dovoljno hrabri' da postavljaju pitanja usmeno, šalju svoje dodatke. Često te alatke iznose samo deo cene tastatura, a nekad su besplatne.

Poboljšano brendiranje

Mobilne aplikacije su aktuelne i daju utisak da su tehnološki uznapredovane - one su izvrstan način da se događaj brendira!

Neće proteći još mnogo vremena pre nego što, u slučaju da događaj ne koristi mobilne aplikacije, prisutni počnu da se pitaju zašto je konferencija zastarela.

Smanjenje troškova i nov dotok prihoda od sponzorstva i oglašavanja

Kako smo napomenuli, postoje mnogi načini na koje mobilne aplikacije mogu da smanje trošak a za to vreme pruže poboljšane usluge na licu mesta. Pored toga, postoje mnogi potencijalni izvori prihoda od izložbenog i sponzorskog oglašavanja.

Nekoliko mobilnih kompanija ima poslovne modele gde nema dodatnih troškova za organizatore događaja. Umesto toga, one se oslanjaju na prihod od izložbenog sponzorstva.

Bolja analitika

Mobilne aplikacije imaju mogućnost da prate broj pregledanja stranica i druge aktivnosti prisutnih.

Neke mobilne aplikacije obezbeđuju proširenu analitiku podataka o ponašanju prisutnih, što može biti od neprocenjive vrednosti za poboljšanje budućih događaja.

Podaci o pregledanju stranica u pogledu pojedinih izložbenih proizvoda mogu takođe biti veoma značajni za izlagače, jer obezbeđuju povezanost sa prisutnima koji su posebno zainteresovani za neki proizvod ili uslugu.

Bolje alatke za upravljanje događajem na licu mesta

Uskoro će nestati oni dani kada ste mogli da na događaju prepoznate osobu koja planira događaje, jer je to osoba koja sobom nosi podebelu hrpu papira sa specifikacijama i nalozima za taj događaj. Aplikacije za događaje za iPad-ove i tablete mogu to izmeniti.

Ootoweb.com nudi "bezpapirni rokovnik sastanka", za nošenje dokumenta prebačenih u .PDF kartoteku, za iPad i iPhone. Buduće verzije uključice i druge operativne sisteme za tablet računare i imaće mogućnost izmene, komentarisanja i lake raspodele tih kartoteka.

Bolji CRM

Trenutni aktuelan model koji prikuplja podatke o sastancima (leadovi-

ma) pomoću bar-koda koji se koristi na mnogim sajmovima je prevaziđen. On je jednosmeran (posetilac prema izlagaču); zasnovan na lokaciji (kod štanda); on košta izlagače znatne sume novca; a nije standardizovan u smislu prikupljanja podataka. Drugi metodi, kakvi su razmena poslovnih kartica, imaju papirne nedostatke. Zašto ne bi svi prisutni sakupljali važne informacije o kontaktima od bilo kog drugog učesnika nekim standardizovanim metodom, elektronski, bilo gde na događaju?

Postoji nekoliko snabdevača mobilnih aplikacija (kao što su Dub i Busy-Events) koji rade u tom pravcu.

Sledeća generacija iPhone-a, priča se, imaće komunikaciju obližnjeg polja (near-field communication - NFC), a to je ukrštena mobilna platforma koja dozvoljava brzu, standardizovanu razmenu informacija o kontaktima, kao i mikro-plaćanje i mogućnosti mobilne trgovine.

Ovo će verovatno dovesti do rasprostranjene upotrebe ove tehnologije koja obezbeđuje daleko efikasnije načine razmene poslovnih kontakata na događajima i sajmovima.

Poboljšano iskustvo posetilaca i izlagača

Sve u svemu, mobilne aplikacije nude čitav niz mogućnosti koje će povećati poslovnu vrednost događaja.

To će planerima sastanaka olakšati život; smanjiće troškove; a obezbediće bogatije iskustvo planerima, izlagačima i posetiocima podjednako.

THE BUSINESS VALUE OF MOBILE APPS FOR MEETINGS

Meeting professionals and attendees are crossing the chasm of early adoption and are entering into the early majority phase. We will see a very rapid adoption of mobile applications for events during the next two years.

Corbin Ball, CSP, MS

Recent data from MPI's FutureWatch 2011 Survey and others indicate that more than 80% of meeting professionals are using smartphones and other mobile devices in their jobs.

Yet, with this high adoption, relatively few have used mobile applications yet for their own meetings. This is about to change.

Meeting professionals and attendees are crossing the chasm of early adoption and are entering into the early majority phase. We will see a very rapid adoption of mobile applications for events during the next two years.

There are many ways that mobile applications can assist events. Here are some of the features found in many of the full-featured mobile applications for events and tradeshows:

- Audience polling
- Concierge and local area information
- Conference program and schedule
- Content distribution – paper replacement (session handouts, course notes, exhibit literature)
- Content distribution – video (YouTube, conference streaming media)
- Cyber café replacement
- Evaluations of speakers, sessions, overall conference and other activities/services
- Exhibit guide with interactive floor plan
- Hybrid and virtual meeting access
- Marketing and advertising of events and sub-events
- Meetings logistics management while onsite (including attendees management, housing management, budget tracking, meetings specifications, and meeting spend tracking)
- Membership management
- Messaging for events (SMS, e-mail, group announcements, etc.)
- Networking / social media / friend finding (event and location - based)
- Product and merchandise sales with micropayment capabilities
- Registration
- Revenue generation from exhibitor, sponsor, and local business advertising
- Mobile team building exercises at events
- Show contractor / supplier communication and logistics
- Site inspection check-list
- Social media onsite integration (for white label apps, Facebook, LinkedIn and Twitter)
- Sponsor ad revenue (with full tracking)

- Surveys
- Ticketing and access control
- Transit tracking (flight tracking, light rail times, etc.) and other business travel tools
- Treasure hunts and other games to stimulate exhibit hall flow
- Way-finding and mapping (through exhibit hall, venue, nearby attractions, city)

Beyond these features, however, there many tangible benefits that mobile technology will bring to event organizers, exhibitors and attendees. Here are a few of them:

Real-time distribution and access to all conference information

Paper conference programs, exhibition guides, and announcements go out of date almost immediately after they are printed - conferences are fluid and things change! Mobile guides and other conference information can be changed on the fly assuring that attendees have instant access to the current information in a ma-

anner that is faster, lighter and easier to access. Event managers can send alerts of significant program changes as well.

Better way-finding through interactive maps, floor plans and location-based services

Attendees often need assistance in finding their way around a venue, an exhibit hall and the neighborhood surrounding the meeting venue.

There are a range of mapping and GPS tools that can help. Some of the advanced mobile exhibit applications (such as Core-Apps.com and Sherpa-Solutions.com) can even pinpoint attendees locations in the exhibit hall and guide them through the hall finding the most efficient path between exhibit booths.

Adding to this will be augmented reality applications (such as Google Goggles) which will layer additional information on phone-cam screens simply by pointing the phone camera at places where attendees want to know more information about.

Environmentally friendly

Events are often awash in paper: program guides, session handouts, course notes, exhibit directories, exhibit brochures, surveys, events specifications and more.

These documents can be accessible more efficiently in mobile platforms. With the upsurge of iPads and other tablets, people will annotate these documents as well.

Mobile devices documents are lighter, easier to use, quicker to access, cost nothing to print/ship and are much more environmentally friendly than paper documents.

Enhanced onsite networking

Social mobile networking apps (meeting industry-specific apps such as Pathable.com and Dub Events), the big three social networking sites (Facebook, Twitter and LinkedIn) and the location-aware apps (such as Foursquare, Gowalla and Facebo-

ok Places) provide completely new networking channels for events. One good contact can often be worth the entire price of the meeting, and these tools will help bring people together to make these contacts.

Also, savvy meeting planners and venue managers are now monitoring the event tweet stream (Twitter comments around a specific event) as the fastest way of being notified of a problem during an event.

Real-time feedback through surveys and polling

Paper surveys for speaker and meeting evaluations are laborious to tally – so much so that they usually

Mobile apps are hot and give the impression of being up-to-date technologically – they are a great way of event branding!

It won't be very long where, if an event does not use mobile applications, attendees will be wondering why the conference is behind the times.

are done after the event. Web-based surveys sent via email links also are usually sent after the event.

In either case, the data received is too late to make mid-course corrections during an event. Mobile surveys are automatically tallied in real-time whi-

le the information is fresh. If a session bombs, or if there are other problems, there are opportunities for corrections during the rest of the meeting by using this survey feedback during the conference.

Audience polling keypads, although they are very helpful feedback tools, tend to be expensive (\$3-12/person/day). As mobile polling apps (such as PollEverywhere.com, Validar.com, Zukuweb.com, and others) move into this space, attendees can use their phones to vote or respond to speaker questions via text messages, mobile-web based polling tools or even Twitter. Additionally, there is the ability to send questions to the speaker, allowing input from audience members who are not "brave enough" to ask questions aurally. Often, these tools are at a fraction of the cost of keypads and sometimes for free.

Enhanced branding

Mobile apps are hot and give the impression of being up-to-date technologically – they are a great way of event branding! It won't be very long where, if an event does not use mobile applications, attendees will be wondering why the conference is behind the times.

Cost reductions and new revenue streams from sponsorships and advertising

As has been mentioned, there are many ways mobile apps can cut costs while providing enhanced onsite services. In additions, there are many potential revenue sources from exhibitor and sponsor advertising. Several mobile companies have business models where there are no direct costs to the show/event organizer. They rely instead on revenue from exhibitor sponsorship.

Better analytics

Mobile apps have the ability to track page views and other attendee activity. Some mobile application provide extensive data analytics of attendee

behavior, which can be invaluable for improving future events.

Page view data regarding specific exhibit products can also be invaluable for exhibitors providing connections to attendees who are specifically interested in a product or services.

Better onsite management tools

Gone soon may be the days where you can identify the meeting planner as the person who is carrying around a 4" 3-ring binder full of paper specifications and event orders at the event. Event-related apps for iPads and tablets may change this.

Ootoweb.com offers a "paperless meeting binder" for meeting planner to carry around related documents converted to .PDF files on an iPad and iPhone.

Future versions will include other tablet operating systems and will have ability to change, annotate and easily share these files.

Better CRM

The current barcode lead retrieval model used at many tradeshows is broken.

It is one way (attendee to exhibitor); location based (at the booth); it costs the exhibitors substantial sums; and is not standardized in terms of data

collection. Other methods, such as business card exchange have paper-based inefficiencies.

Why can't all attendees collect important contact information from any other attendee in a standardized method electronically anywhere at the event?

There are several mobile apps providers (such as Dub and BusyEvents) that are working in this direction.

The next generation of iPhone, it is rumored, will have near-field communication (NFC), a cross-mobile platform that will allow quick, standardized exchange of contact information as well as micro-payment and mobile commerce capabilities.

This will likely push this technology to wide-spread usage providing much more efficient ways of business contact exchange at events and tradeshows.

Enhanced attendee and exhibitor experiences

The bottom line is that mobile applications are offering a wealth of new capabilities that will increase the business value of events.

It will make the lives of meeting planners easier; it will reduce costs; and will provide richer experiences for planners, venues managers, exhibitors and attendees alike.

Beogradska tvrđava sa parkom Kalemegdan

SPOJ AVANTURE I ISTORIJE

Život na grebenu nad ušćem Save u Dunav u kontinuitetu traje više od dva milenijuma. Punih šest vekova proteklo je od vremena kada je Beograd, prvi put u svojoj istoriji, postao prestonica. Jezgro oko koga se do danas oformila dvomilionska aglomeracija predstavljaju Beogradska tvrđava i Kalemegdanski park. Oni čine jedinstvenu prostornu celinu na kojoj su jasno vidljivi ostaci Tvrđave, podeljene na Gornji i Donji grad, sa dva jasna stilska obeležja – elementi srednjovekovne arhitekture prožimaju se s dominantnim baroknim rešenjima karakterističnim za XVIII vek. Kalemegdanski park, Veliki i Mali, nastao na prostoru nekadašnjeg gradskog polja, mesto je odmora i uživanja.

Zajedno, Beogradska tvrđava i park Kalemegdan, predstavljaju spomenik kulture od izuzetnog značaja, mesto održavanja mnogobrojnih sportskih, kulturnih i umetničkih manifestacija, mesto zabave i razonode svih generacija Beograđana i sve brojnijih posetilaca grada. Kako bi organizatorima događaja bliže predstavili mogućnosti ovog jedinstvenog prostora, razgovor smo vodili sa PR-om Beogradske tvrđave, **Anom Rajlić**.

1. Beogradska tvrđava sa parkom Kalemegdan je nezaobilazna znamenitost Beograda. Koliko se tvrđava koristi za organizaciju korporativnih događaja, incentive i team building tura?

Beogradska tvrđava, zajedno sa parkom Kalemegdan, prostire se na oko 60 hektara, predstavlja prostor od izuzetnog značaja za Republiku Srbiju i zaštićen je Zakonom o kulturnim dobrima. Kao takav, veoma je atraktivan kako za turiste tako i za organizatore različitih događaja. Najčešće se koristi tokom letnjih meseci, kada postoji mogućnost da se na otvorenom prostoru organizuju manifestacije. Tokom 2010. godine kroz kompleks

je prošlo više od dva miliona posetilaca, organizovano je više od 100 različitih kulturnih, zabavnih i sportskih manifestacija, niz promotivnih akcija, konferencija za novinare, studentskih radionica i seminara...

Osim velikih manifestacija, koje privlače najveći broj posetilaca (Festival hrane i pića, Dani Beograda, Dani evropske baštine, Fish fest, Beogradska trka kroz istoriju), Beogradska tvrđava je bila prostor i za održavanje različitih seminara i radionica: Međunarodna radionica studenata arhitekture,

Seminar o rezervnom padobranu u organizaciji Vazduhoplovnog saveza Beograda, seminar „Proširena scenografija“, Međunarodno takmičenje u pružanju prve pomoći u organizaciji Crvenog krsta Srbije. U protekloj godini, Beogradska tvrđava ugostila je i Savez izviđača Srbije, Međunarodno udruženje za proučavanje rimske keramike, Društvo defektologa Srbije i brojne druge organizacije i udruženja.

Zbog specifičnosti zatvorenih objekata na Beogradskoj tvrđavi, ovi prostori se uglavnom koriste za održavanje umetničkih radionica i seminara iz oblasti kulture.

2. Koje sve lokacije u okviru Beogradske tvrđave mogu biti na raspolaganju za buduće organizatore? A šta biste Vi preporučili kao najatraktivnije, a možda manje poznato?

Osim otvorenog prostora (park Kalemegdan, Donji grad i Gornji grad), na Beogradskoj tvrđavi se mogu koristiti i zatvoreni objekti, koji se po mnogo čemu razlikuju od drugih prostora u gradu: kazamati, Veliki barutni

magacin, Unutrašnja Stambol kapija, Vojni muzej, Kula Nebojša... Njihova istorija, autentičnost, specifičan enterijer koji se teško može još negde pronaći, svakako predstavlja preporuku za korišćenje upravo ovih objekata. U nedavno otvorenoj obnovljenoj Kuli Nebojši na Donjem gradu za sada se može koristiti aneks Kule, a u planu je i završetak multifunkcionalne sale, koja će moći da se koristi za organizaciju različitih događaja: tribine, naučni skupovi, okrugli stolovi, izložbe, modne revije, predstave, performansi... Kada bude završena, svakako će biti jedan od najatraktivnijih prostora u gradu, s obzirom na veličinu (oko 500 sedećih mesta), prilagodljivost i činjenicu da se naslanja na srednjovekovnu Kulu Nebojšu, građenu sredinom 15. veka.

3. Prema vašem iskustvu, koju su najčešći a koji najneobičniji zahtevi organizatora nekog od događaja?

U poslednje vreme najveće interesovanje vlada upravo za Kulu Nebojšu, ali puno korišćenje njenih kapaciteta možemo očekivati tek po okončanju multifunkcionalne sale. 2010. godine najveći broj događaja održao se na otvorenom prostoru. S obzirom da se radi o događajima koji se međusobno veoma razlikuju po opremi potrebnoj za realizaciju, broju ljudi i svemu ostalom neophodnom za održavanje manifestacije, svaki od njih je imao svoje specifične zahteve: od veličine bina, platna za različite projekcije na najrazličitijim mestima, preko pravljenja

sopstvene scenografije i praktično menjanja enterijera i eksterijera (najčešće za snimanja filmova, serija i reklamnih spotova).

4. Događaj o kome se s ponosom priča ovih dana je otvaranje Kule Nebojša, pa da li nam možete reći nešto više o ovom specifičnom prostoru?

Radovi na obnovi i ponovnoj upotrebi Kule Nebojše bili su najobimniji radovi iz oblasti očuvanja kulturnog nasleđa koji su ikada rađeni u Srbiji. U radovima je učestvovalo 18 institucija i namenskih preduzeća i 148 stručnih lica. Na samim radovima svakodnevno je radilo 60 ljudi. Objekat je u rekordnom roku (godinu dana) završen, a izložbena postavka kompletirana je u martu ove godine. Koliki je značaj Kule Nebojša, ne samo za grad, već i za Srbiju i Grčku, koja je izdvo-

jila najveću donaciju iz oblasti kulture koju je Beograd ikada dobio, govori i činjenica da su Kulu svečano otvorili predsednici Srbije i Grčke Boris Tadić i Karolas Papuljas, kao i gradonačelnik Beograda Dragan Đilas.

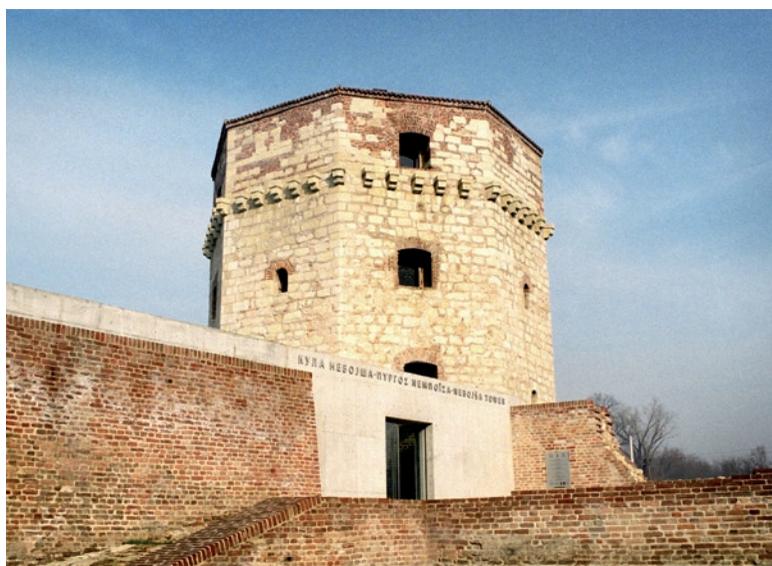

Obnovom Kule Nebojše, Beograd je dobio nov kulturni sadržaj, nudeći nešto potpuno drugačije, savremeno i jedinstveno. Moderno učenje istorije, uz računare, projektore i digitalne ramove čini ovu postavku najmodernijom u gradu. Činjenica da se takav koncept nudi u srednjovekovnoj Kuli (građenoj u 15. veku) donosi neočekivan spoj starog i novog, modernog i tradicionalnog, prošlosti i budućnosti.

Želja svih nas koji smo učestvovali u realizaciji ovog projekta jeste da Kula Nebojša postane i centar kulturnog okupljanja, gde će se održavati brojne manifestacije različitog karaktera. Zato je potrebno završiti i multifunkcionalnu salu, čijim otvaranjem će projekat uključivanja Kule Nebojše u kulturni život grada biti u potpunosti završen.

5. Za kraj, da li postoji neki događaj koji bi izdvojili kao „događaj za pamćenje“? Šta ga odvaja od ostalih?

Za nas je to svakako otvaranje Kule Nebojše – događaj koji smo dugo iščekivali i pripremali i koji za nas predstavlja događaj godine.

Belgrade Fortress with Kalemegdan Park

ADVENTURE AND HISTORY COMBINED

Life on the crest over the confluence of the Sava River into the Danube has evolved continually for more than two millennia. More than six centuries have passed since Belgrade became a capital city for the first time. The core around which the two-million agglomeration was formed up to the present day is the Belgrade Fortress and the Kalemegdan Park. They compose a unique spatial unity, with clearly visible remnants of the Fortress, divided into the Upper and Lower Towns, with two distinct characteristics of style – elements of the mediaeval architecture are dispersed among domineering Baroque designs characteristic of the 18th century. The Kalemegdan Park, the Big and the Small ones, developed over the surface of the former city dale, is a place of rest and delight.

Together, the Belgrade Fortress and its Kalemegdan Park are the cultural monuments of exceptional value, the venue where numerous sports, cultural, and artistic manifestations are held, the place for fun and distraction to all generations of Belgraders and to an ever growing number of foreign visitors. In order to present more closely the opportunities offered to organizers by this unique space, we interviewed the Belgrade Fortress PR Ms. **Ana Rajlić**.

1. The Belgrade Fortress, together with Kalemegdan Park, is the landmark of Belgrade one should definitely visit. How much is the Fortress used to organize corporate events, incentives and team building tours?

The Belgrade Fortress, together with Kalemegdan Park, extending on over some 60 hectares, represents a place of particular interest to the Republic of Serbia and is protected by the Law on Cultural Wealth. As such, it is very attractive both to tourists and organizers of various events. It is mostly used during the summer season, when it is possible to organize open-air mani-

festations. In 2010 the complex was visited by more than two million visitors, there were over 100 different cultural, entertainment, and sports events organized, a string of promotional activities, press conferences, student workshops and seminars...

Beside hosting great manifestations attracting the largest number of visitors (Food and Beverages Festival, Belgrade Days, European Heritage Days, Fish Fest, Belgrade Race Through History), the Belgrade Fortress was also the venue for various seminars and workshops: the International

Workshop for Students of Architecture, a seminar on Reserve Parachute organized by the Aviation Association of Belgrade, 'Widened Set Design' seminar, First Aid International Competition organized by the Red Cross of Serbia. The Belgrade Fortress also hosted the Scouts Association of Serbia last year, the International Union for the Study of Roman Ceramics, the Serbian Society of Special Education Teachers and numerous other organizations and alliances. Due to the specifics of the closed facilities at the Belgrade Fortress, those are mainly used to organize artistic workshops and seminars related to culture.

2. Which sites within the Belgrade Fortress can be at disposal to future organizers? What would you recommend as rather attractive, but fairly unknown?

Beside its open-air spaces (Kalemegdan Park, Lower and Upper towns), the closed facilities in the Belgrade Fortress, quite different by many characteristics from other venues in the city, may also be used: dungeons, the Great Gunpowder Storeroom, Inner

Stambol gate, the Military Museum, the Nebojša Tower... Their history and authenticity, with specific interiors hard to find elsewhere, surely suffice for a good recommendation to use the objects. In the recently reconstructed Nebojša Tower open to public in the Lower Town, presently we can use an annexe to the Tower, and after the multi-functional hall is completed it will be used to organize various events: open discussions, scientific gatherings, round tables, exhibitions, fashion shows, theatrical plays, performances... Once finished, it will certainly be one of the most attractive scenes in the city, due to its spaciousness (around 500 seats), adaptability, and the fact that it leans onto the mediaeval Nebojša Tower erected by the mid 15th century.

3. According to your experience, what are the most frequent and what are the most unusual requests put to you by some of the event organizers?

Recently, the greatest interest is shown for the Nebojša Tower, but we can expect it to be fully operational for use of its capacities only after the multi-functional hall is completed. In 2010 most events were held in the open. As those were rather diverse happenings regarding the equipment needed for their realization, the number of people or performers, and all other points concerning the organization of those manifestations, each had specific requests: ranging from the size of the stage, the screens for various projections at the most

varying spots, to the construction of their own stage props or virtually changing the interior and exterior settings (most often when shooting a film, a television soap opera or an advertising clip).

4. The event proudly recounted these days is the opening of the Nebojša Tower. Can you tell us something more about this particular venue?

Reconstructive works executed to enable usage of the Nebojša Tower again were the most encompassing task ever done in Serbia in the field of cultural heritage preservation. The works engaged 18 institutions and defence companies, with 148 professionals. 60 people worked each day at the reconstruction site. The construction was completed in record time (one year), and the exhibition was set up and completed in March this year. The importance of the Nebojša Tower, not only to the city, but also to Serbia and Greece, which allotting the largest donation in the field of

culture ever granted to Belgrade, is also shown by the fact that the Tower was formally opened by presidents of Serbia and Greece Boris Tadić and Karolos Papuljas, escorted by the mayor of Belgrade Dragan Đilas.

With the reconstructed Nebojša Tower, Belgrade acquired a new cultural venue which offers something quite different, modern and unique. A modern-style lecture in history, with PCs, projectors and digital frames, makes this exhibition the most sophisticated one in town. The fact that such a concept is presented in a mediaeval tower (built in the 15th century) brings an unexpected blend of old and new, of the modern and the traditional, of past and future.

All those who participated in the realization of this project have but one wish – for the Nebojša Tower to become the focus of cultural gatherings, a venue where numerous manifestations of varied character could be organized. That is why it is necessary to complete the multi-functional hall, the opening of which would finally terminate the project of including the Nebojša Tower in the city cultural life.

5. For the end, is there an event you would distinguish as "an event to remember"? What sets it apart from others?

To us it was certainly the opening of the Nebojša Tower – an event we were ready for and waited to happen for such a long time, so it has to be the event of the year.

JEDINSTVENI KOMPLEKS KOJI OBEĆAVA NEZABORAVNO ISKUSTVO

Ono što ovaj prostor čini jedinstvenim u sektoru korporativnih događaja jeste činjenica da su sve ove ponude integrisane unutar jednog jedinstvenog mesta. Lociran na samo 35 minuta od Pariza, sa lakim pristupom ka dva međunarodna aerodroma, Disneyland® Paris se izdvaja kao integrisani kongresni kompleks broj jedan u Evropi.

„Nijedna druga destinacija ne može se takmičiti sa Disneyland® Paris kad se radi o isporuci korporativnih poruka na nezaboravan način u jedinstvenom okruženju”, kaže Eloi Courcoux, Direktor Business Solutions Disneyland® Paris. Neobični prostori

DOŽIVETI SRBIJU KROZ NEOBIČNE PROSTORE

Salaši, etno sela i etno parkovi, vinski podrumi, građevine istorijskog nasleđa, zasigurno su neobični prostori koje treba doživeti uz, naravno, raznoliku ponudu Beograda kao metropole.

U nastavku prikazujemo samo jedan deo koji Srbija može da ponudi.

BELI DVOR - nalazi se sa Kraljevskim dvorom u okviru dvorskog kompleksa na najvišem delu Dedinja u Beogradu, na imanju površine 135 hektara. Gradnju Belog dvora započeo je 1934. godine, privatnim sredstvima kralj Aleksandar sa željom da napravi rezidenciju za svoje sinove (kraljevića Petra, Tomislava i Andreja), ali nije doživio da vidi završetak radova.

Izgradnju dvora dovršio je knez Pavle koji je, kao veliki ljubitelj umetnosti, dvor opremio vrednim umetničkim delima. Ovo zdanje pleni svojom jednostavnošću, otmenom elegancijom i uravnoteženim, simetrično raspoređenim masama. Dvorski kompleks na Dedinju proglašen je za kulturno dobro i spada među spomenike kulture od izuzetnog značaja. Kao takva institucija, Dvor je otvoren da podrži sve vrste kulturnih i drugih manifestacija, koje su od izuzetne važnosti za Republiku Srbiju. Verovatno najpoznatiji deo Belog Dvora je Zlatni salon koji je povezan skoro sa svim delovima palate. Svim zainteresovanim građanima omogućene su turističke ture i poseta Dvorskom kompleksu, preko Turističke organizacije Beograda, tokom turističke sezone koja traje od aprila do oktobra meseca. www.dvor.rs

Farmsteads, ethno villages and ethno parks, wine cellars, historic heritage edifices, these are surely special venues to be experienced in Serbia, along with various offers in Belgrade as the metropolis. The following is just a part of what Serbia has to offer.

THE WHITE PALACE (BELI DVOR) - together with the Royal Palace, it is part of the 135-hectare estate of the royal complex on the topmost posh

area of Dedinje in Belgrade. The Palace was finished under the supervision of the Prince Regent Paul, a great lover of arts, who decorated the Palace with valuable works of art. This structure fascinates people with its simplicity, noble elegance and balanced, symmetrically distributed masses. The Royal compound in Dedinje was proclaimed cultural wealth and ranks among cultural monuments of exceptional value. As such an institution, the Palace is open to support all kinds of cultural and other sorts of events of particular importance to Serbia. Probably the

most famous part of the White Palace is the Golden Salon connected to almost all other parts of the palace. Sightseeing of The Royal Compound is made possible thanks His Royal Highness Crown Prince Alexander II and the joint work of the Tourist Organization of the City of Belgrade. CRNA GORA - MALA ZEMLJA PUNA RAZNOLIKOSTI

Crnu Goru kao turističku destinaciju odlikuje mala površina zemlje koja ima dosta toga da pruži.

U jednom danu, posetilac može sebi priuštiti jutarnju kafu na jednoj od mnogobrojnih plaža Budvanske rivijere, ručak na Skadarskom jezeru, i večeru uz ognjište na obroncima velepne planine Durmitor. Burna istorija ove male države, ostavila je za sobom neprocenjivo blago, koje se ogleda u istorijskim spomenicima širom zemlje. Neki od njih nastavili su da žive i u ovom modernom dobu, otvarajući svoja vrata, između ostalih, i organizacijama korporativnih događaja.

KANLI KULA - Izgrađena na čvrstoj krečnjačkoj steni, na 85 metara iznad mora, Kanli kula prvi put se u pisanim

dokumentima pominje kod turskog putopisca Evlije Čelebije sredinom XVII veka. Pretpostavlja se da je izgrađena u srednjem veku, a današnji izgled dobila je u vreme turske vladavine sredinom XVI veka. Danas se na njoj nalazi naljepša letnja pozornica na Jadranu sa čak oko 1.005 numerisanih sedišta. Sedište je napravljeno, kako drugačije nego od kamena, preko kojeg se u vreme održavanja raznih festivala poput HercegNovskog filmskog festivala, nekada Sunčanih Skala, Guitar Art summer festa, i raznih drugih susreta, stavlja gumena podloška (strunjača). Pri organizaciji bilo kog događaja poželjno je znati

Tvrđava Citadela, Budva

da su vremenski uslovi u Herceg Novom jako promenljivi i da bi organizacija zahtevala dosta truda i sredstava, a koji se ipak na kraju isplate. Pozornica, s pogledom na izlaz iz Bokotorskog zaliva, Lušticu i Prevlaku, kao i na krovove Starog grada, zasigurno odiše nesvakidašnjim i posebnim ambijentom.

TVRĐAVA CITADELA, BUDVA - Srednjevekovni kastel grada Budve, posvećen Sv. Mariji, danas poznatiji kao Citadela, najmonumentalniji je građevinski objekat unutar budvanskih gradskih zidina. Kompleks građevina je arhitektonski potpuno au-

tonoman, a u okviru njega se nalaze bedemi, ostaci srednjevekovne crkve Sv. Marije, kapije, više platoa i zgrade nekadašnje kasarne. Restoran koji se nalazi na prvom spratu svojim ambijentom i intimnim separeima predstavlja idealno mesto za okupljanja uz vrhunsko kulinarsko umeće i vanserijsku uslugu. Restoran čini celinu sa prostranom terasom na istočnoj kuli sa koje se pruža omamljujući pogled na ostrvo Sv. Nikola i morsku pučinu.

VINSKI PODRUM ŠIPČANIK - Podrum je otvoren krajem 2007. godine, nakon prve faze rekonstrukcije koja je trajala nešto više od godinu dana

Vinski podrum Šipčanik

i u koju su „Plantaže“ uložile 2 miliona evra. Čitav projekat uključuje i uređenje okolnog prostora. Brdo Šipčanik se nalazi na istočnoj strani Podgorice i oslanja se na kompleks vinograda Čemovskog polja. Sa tvrđave, koja je na samom uzvišenju, pruža se predivan pogled na Skadarsko jezero i grad Podgoricu. Podrum se nalazi na prosečnoj dubini od preko 30 metara. U obliku je tunela dugog 356 metara, prosečne širine 13,5 metara i visine 7 metara. U podrumu Šipčanik, na blizu 7.000 kvadratnih metara, mogu se priređivati mnogobrojni događaji, a najčešće su to prijemi, prezentacije i korporativne proslave uz naravno degustaciju vina.

GOSPA OD ŠKRPJELA - Ostrvo ispred Perasta je veštačko ostrvo napravljeno krajem XV veka, gde su prema predanju braća Moršići pronašla goblen Gospe. Goblen je autoportret, koji je ona izvezla od svoje kose, čekajući svog dragog. A zatim su Peraštani odlučili da na tom mestu sagrađe

Gospa od Škrpjela

srpski pravoslavni hram Bogorodici. Veliki pomorci koji su dolazili u Boku donosili bi u svojim jedrenjacima kamenje koje bi na tom delu zaliva bacali u more, a kada je stvoreno ostrvo ubrzo zatim je i sagrađena crkva. Čak i danas taj običaj se sačuvao. Peraška fašinada, održava se 22. jula, predstavlja tradicionalnu manifestaciju sastavljanja barki iz Perasta. Barke

se ukrašavaju i na njih se stavlja po koji kamen i posle obilaska obale grada Perasta svi kreću ka ostrvu. Tamo nastupa slavlje i svi bacaju kamenje u more oko ostrva. Ovo jedinstveno ostrvo na crnogorskoj obali pruža izuzetan doživljaj pri organizaciji druženja, koktela, korporativnih proslava a može ugostiti oko 100 delegata.

MONTENEGRO - A SMALL COUNTRY OF GREAT VARIETY

Montenegro as a tourist destination is characterised by small ground surface of the country that has so much to offer. A visitor can arrange for himself his morning coffee at one of many beaches of the Budva Riviera, a lunch at the Lake Skadar, and dinner beside a fireplace on slopes of the magnificent mountain Durmitor. Turbulent history of this small country left behind a priceless treasure reflected in historic monuments all over the country. Some remain living in these modern times, opening their doors to everyone interested, among them to the corporate events organizers, too.

KANLI TOWER - It was built on a solid limestone rock, at 85 metres above the sea. The Kanli Tower was first mentioned in written documents by

the Turkish traveller and writer Evliya Celebi by mid-17th century. It is supposed that it was built in mediaeval times, and it got its present shape in the period of the Turkish rule by mid-

16th century. Today it boasts with the most beautiful summer stage on the Adriatic, with no less than 1,005 numbered seats. A seat is made - how else? - out of stone onto which they

place a rubber pad (mat) at the time of holding various festivals, such as Herceg Novi Film Festival, once for the Sunčane Skale, the Guitar Art Summer Fest, and all sorts of other events. In organizing some kind of event it is advisable to know that weather conditions in Herceg Novi are rather changeable, so that organization of event is quite demanding in terms of effort and means, but it all pays off in the end. The stage with a view on the Bay of Kotor, the Luštica, the Prevlaka, and over the rooftops of the Old Town, surely emanates an uncommon and distinct ambience.

FORTRESS CITADEL, BUDVA - The mediaeval castle in the town of Budva, dedicated to St. Mary, renowned today as Citadel, is the most monumental building within the Budva town walls.

The complex of buildings is completely autonomous in architectural sense, and it houses the ramparts, remnants of the mediaeval St. Mary's church, gates, several plateaux, and former barracks.

The restaurant on the first floor is an ideal place for assemblies in its special setting and intimate private dining rooms, along with supreme culinary skills and extra good service.

The restaurant makes one single unit with a spacious terrace on the eastern tower, where one gets a fascinating view onto the island of St. Mark and the sea offing.

ŠIPČANIK WINE CELLAR - The cellar was opened by the end of 2007, after the first phase of reconstruction which lasted for more than a year, with 2 million Euros invested by "Plantaže". The complete project includes the planning of the surrounding area. Šipčanik Hill is on the east side of

Šipčanik wine cellar

Podgorica, leaning on the complex of vineyards of the Čemovsko Field. The fortress, situated on the very top, opens up to the beautiful view of the Lake Skadar and the city of Podgorica. The cellar is at the average depth of over 30 metres. It is in the shape of a tunnel which is 356 metres long,

its average width is 13.5 metres, and its height is 7 metres. In the Šipčanik Cellar, on the surface of almost 7,000 square metres, numerous events can be organized, such as receptions, presentations, and corporative celebrations, including the wine tasting.

GOSPA OD ŠKRPJELA - The island facing the town of Perast is an artificial island made by the end of the 15th century. According to a legend, brothers Moršić found there a gobelin of Lady (Gospa). The gobelin is autoportret, which was made from Lady's hair, while she was waiting for her beloved. The townspeople of Perast decided to erect a Serbian Orthodox temple dedicated to Virgin at that spot. The great seafarers coming to the Bay of Kotor would bring along some stones in their sailboats and then they would throw them into the sea at that spot.

Once the island was created it was not long before the church was built as well. The custom survives even today. The Perast Festivities, held on July 22, is a traditional manifestation when people join their boats in Perast. The boats are first decorated and then some stones are put on deck. After cruising along the Perast coast, everyone heads to the island. There the jubilation starts and everyone throws stones into the sea around the island. This unique island on the Montenegrin coast offers an exceptional experience when organizing assemblies, cocktails, corporative celebrations, with its capacity of about 100 delegates.

mlje, bunker je sagrađen sa namerom da u slučaju (atomskog) rata funkcioniše kao centar vojnih operacija (sklonište za štab vrhovne komande) i sklonište za predsednika Tita, njegovu porodicu i najbliže saradnike. Ovaj objekat, koji podseća na lavirint sa više od stotinu prostorija i potpuno sačuvanim inventarom (sastoji se od brojnih rezidencijalnih prostora, sala za konferencije, kancelarija i predse-dničkog bloka), bio je predviđen da obezbedi nesmetan život 350 ljudi tokom 6 meseci. Do 90-ih godina izgrađnja (koja je trajala od 1953. godine do 15.09.1979. godine, i za koju je investirano 4,6 milijardi američkih dolara) i postojanje ovog bunkera bila je najstrožije čuvana tajna. Neke od zanimljivosti u vezi ovog objekta su:

- Prostorije Generalštaba - Vrhovne komande nalaze se 275 metara pod zemljom i armiranim betonom
- Titov kabinet nalazi se 220 metara ispod zemlje dimenzija 5,57 m x 3,20 m.

TEŠANJSKA TVRĐAVA - Tešanj predstavlja spoj prošlosti i modernog perioda, pa se u njemu nalazi i tvrđava koja datira iz ilirskog perioda. U srednjovekovnom periodu, tvrđava je znatno nadograđena, a kasnije je

u njoj napravljena i sahat-kula koja je i danas u funkciji. Tvrđava ima dva bedema i ugostiteljski objekat. Pored tvrđave u kojoj se održavaju brojne kulturno-turističke manifestacije, u Tešnju gosti mogu posetiti i Ferhadbegovu džamiju iz XVII veka koju je sagradio rođak sultana Sulejmana Veličanstvenog, Ferhad-beg. Filled with traces of crossings of different cultures and religions, Bosnia and Herzegovina can be distinguished by her magnificent heritage such as the mediaeval tombstone – Stećak, the Old Bridge – Mostar, the Vjetrenica Cave, the Hutovo Blato National Park, the European rain forest – Perućica, Bosnian pyramids, and many other monuments.

As for special venues for corporate events organization, we pointed out several of those which can attract attention in every respect, providing for an unforgettable experience to those who visit them.

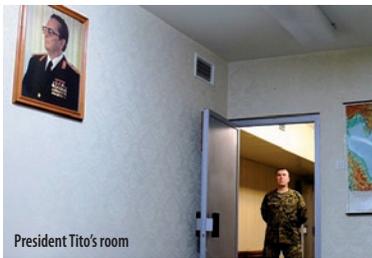

NUCLEAR WAR COMMAND (military code name D-0) is located near Konjic, inside a hill, at the foot of Mt. Zlatar, constructed by former JNA (Yugoslav National Army) on the surface area

Cultural Event of Europe

Biennale D-0 Ark Underground Time Machine was held on 27th of May 2011, when it was ceremoniously opened. A Finnish artist, professor at the state Academy of Arts, Villu Jaanisoo, renowned for his large-scale installations, aided by four Finnish students of fine arts and five students of the Sarajevo Academy of Fine Arts, as well as twenty young volunteers from Konjic, organised an exhibition of his artistic works in Bloc 9, that is in the energy bloc of the Atom Shelter. www.bijenale.ba

of 6.500 sq. m. Situated at the depth of 280 metres below ground level, the bunker was erected with the intention of having it operational in case of (atomic) war as the centre of military operations (bomb shelter for the Supreme Command HQs.), and as a shelter for president Tito, his family and closest associates. The construction, reminiscent of a labyrinth with more than a hundred rooms and fully preserved inventory (consisting of numerous residential apartments, conference halls, offices, and a presidential block of rooms), was designed to provide space for unobstructed living to 350 people for 6 months. Until the '90s the construction (lasting from

President Tito's room

1953 to 15 September 1979, with 4.6 billion US dollars invested) and existence of this bunker was a top secret. Some interesting points concerning the building are:

- Over 20.000 tons of earth dug out mostly by hand out of Mt. Zlatar
- There are 6.015 neon lamps inside
- Only 19 persons knew about the existence of this construction and they kept the top state secret for 37 years
- The building has its own potable water, ventilation, cable system, and 2 tanks with 25 tons of fuel
- General Headquarters – Supreme

Command rooms are 275 metres below ground level in reinforced concrete

- Tito's office is 220 metres below ground level, it measures 5.57 m. x 3.20 m.

TEŠANJ TOWER - Tešanj is a combination of past and modern, and it has a fortress dating back from the Illyrian period. In the mediaeval times the fortress was largely reconstructed and enlarged, later on it was annexed by a clock tower which is operational even today. The fortress has two ramparts and a catering facility. Beside the fortress with its numerous cultural-tourist manifestations, guests in Tešanj can also visit Ferhad-bey's mosque from 17th century, constructed by Ferhad-bey, relative of Sultan Suleyman the Magnificent. Tešanj Fortress houses a stage situated at a 'plateau' within the Fortress, a very interesting venue for seminars, conferences, and similar.

THE NATIONAL MUSEUM OF BOSNIA AND HERZEGOVINA - Capacity of 200 – 300 people, can be a good

choice to organize various manifestations and cultural-entertainment programmes, balls, and receptions. Beside the indoor facilities, there is a magnificent open space, the Botanical Garden, with the capacity of 500 seats. www.zemaljskimuzej.ba

and developed. Hamam, with its capacity of 100-120 seats, is a venue for numerous cultural events, such as book promotions, literary evenings, concerts, exhibitions, but also a spot where people can socialise and meet one another.

The Castle features seven indoor function spaces, which can, for standing receptions, welcome a maximum of 400 guests in the largest one, while the spacious courtyard offers the capacity for up to 800 guests. MISTIČNI ZAMKOVI U RUMUNJI ZA HRABRE DELEGATE

Rumunija kao destinacija, između ostalog, poznata je i po svojim dvorcima, palatama i legendi o Grofu Drakuli. Izdvajamo nekoliko zankova koji kao posebni prostori mogu biti izuzetna inspiracija za organizovanje team buildinga, incentive putovanja ili koktel proslava.

ZAMAK HUNEDOARA (ZAMAK CO-RVINESTI) - Predstavlja zamak u gotskom stilu sagrađen na rimskim ruševinama iz XIV veka. Vlad Tepes je kao mlad bio zatočen u njemu 7 godina. Ovaj zamak je tvrđava od čvrstog kamena koju su sagradili turski zatvorenici. Ona nosi 3 ogromne šiljate kule, pokretni most i visoke zidine, ima 5 mermernih stubova koji delikatnim rebrastim svodom nose dve sale, kao i Vitešku salu. Zamak je služio kao tvrđava do sredine XIV veka, kada postaje rezidencija vladara Transilvanije, lancu de Hunedoara. lancu je poboljšao utvrđenje i ono je uskoro postalo poznato kao najbolji zamak u Transilvaniji.

Danas su tu Galerija, Kula buzdovana, Viteška dvorana, Dvorana Saveta, Kapela, kao i 100 stopa dvorišta. Raskošna dvorana zamka, Viteška dvorana može da ugosti sastanak do 300 gostiju.

Zamak Bran

ZAMAK BRAN - Poznat kao "Drakulin zamak", prvobitno je sagrađen 1212. godine kao tvrđava za vitezove Tevtonce, a kasnije su ga Saksonci

Zamak Hunedoara

dogradili u XIII veku kako bi odbranili grad Brosov. Neke verzije pominju zamak Bran kao sedište Vlada Tepesa. To je jedan od najživopisnijih zankova u Rumuniji, na brdu sa koga se pruža veličanstven pogled. Sadrži zbirku starog nameštaja iz XIV - XV veka i etnografski muzej pod vedrim nebom o starim seoskim građevinama sa izložbom nameštaja, kućnih stvari i odežde.

DVORAC PELES - Sa prirodnom pozadinom od Karpatskih planina, Dvorac Peles je remek delo nemačke renesansne arhitekture. Nekada je dvorac bio letnja rezidencija i utočište rimskim velikodostojnicima. Sada je 160 prostorija Dvorca ukrašeno najlepšim primercima evropske umetnosti, sa kristalnim lusterima od Murano stakla, prozorima od nemačkog vitražnog stakla, zidovima prekrivenim kožom iz Kordobe, porcelanom iz Majnsa i Sevra, sa skulpturama od abonosa i slonovače. Njegova zbirka srednjovekovnih mačeva i viteških oklopa je prosto zapanjujuća.

TVRĐAVA FAGARAS - Sagrađena u XV veku od strane prinčeva Transilvanije, jedana je od najbolje očuvanih srednjovekovnih zankova u Rumuniji. Tvrđava ima 80 soba, a okružuje je dubok i širok šanac. Citadela se svrstava među najjače u Transilvani-

ji, odolevala je i turskim i tatarskim invazijama. Pristup je mostom preko odbrambenog jarka a u centru tvrđave se nalazi zamak. On ima tri nivoa (podrum, prizemlje, prvi sprat) i pet kula (Crvena kula, Crna kula, Zatvorska kula, kula Tomori i Šarena kula). Unutra se nalazi Muzej pokrajine Fagaras; sastoji se od arheološkog odeljka, gde se prikazuje evolucija varoši Fagaras; istorijskog odeljka, gde se izlažu artefakti iz Rimskog doba pored zbirke srednjovekovnog oružja i etnografskog odeljka, koji se bavi umetničkim i narodnim rukotvorinama te oblasti.

SCARY CASTLES IN ROMANIA FOR THE BRAVE DELEGATES

Romania as a destination, among other attractions, is also renowned for her castles, palaces, and the legend about Count Dracula. We pointed out several castles as special venues that can inspire greatly in organizing a team building event, incentive travel or a cocktail celebration.

BRAN CASTLE - Often referred to as "Dracula's Castle", originally built as a fortress for the Knights of the Teutonic in 1212. It was later re-built in 13 C by the Saxons to protect the city of Brosov. Some versions refer to Bran Castle as the base for Vlad Tepes. One of the most picturesque castles in Romania, sitting on a hilltop with magnificent views.

Contains a collection of antique furniture from 14 - 15 C and an open air ethnographic museum of old village buildings with exhibits of furniture, household objects and costumes.

PELES PALACE - In the natural backdrop of the Carpathian mountains the Palace of Peles is a masterpiece of German Renaissance architecture. Used to be the Romanian Royalty Summer residence and retreat.

The Palace's 160 rooms are adorned by the finest examples of European art, Murano crystal chandeliers, German stained-glass windows, walls covered with Cordoba leather, Meissen and Sevres porcelains, ebony and ivory sculptures. Its medieval collection of swords and knights armour are simply astonishing.

FAGARAS FORTRESS - Built in 15 C by Transylvania princes, is one of the most well preserved medieval castles in Romania.

The castle has 80 rooms, and is surrounded by a deep and wide moat. The citadel was ranked among the strongest in Transylvania, standing up to Turkish and Tartar invasions.

Access is made through a bridge over the defense moat. At the centre of the citadel stands the castle. It has three levels (basement, ground floor, first floor) and five towers (the Red Tower, the Black Tower, the Prison's Tower, Tomori Tower and the Motley Tower). Inside is the Museum of Fagaras County; comprised of an archaeology section, which render the evolution of the Fagaras borough; history section, which display Roman artifacts and a collection of medieval weapons, and ethnographic section, which focus on artistic and folk crafts in the area.

S. G

HUNEDOARA CASTLE (CORVINESI CASTLE) - Gothic style castle built on roman ruins in 14 C. Vlad Tepes was imprisoned here during his youth for 7 years. This castle is a solid rock fortress fiercely built by Turkish prisoners. Holds 3 huge pointed towers, a drawbridge and high battlements, 5 marble columns with delicate ribbed vaults support two halls, and Knight's Hall. It served as a fortress until mid the 14 C when it became the residence of Transylvania's ruler, Iancu de Hunedoara. Iancu upgraded the fortress and it soon became known as the most beautiful castle in Transylvania. Today it has Gallery, Maces Tower, the Knights Hall, the Council Hall, Chapel, and 100 ft courtyard. Its sumptuous Knights' Hall can host meeting for up to 300 guests.

MOTIVACIJA MENADŽMENTA I TIMOVA ZA OSTVARIVANJE ŠTO BOLJIH REZULTATA KOMPANIJE

Era globalizacije i tehnološke revolucije, a koju prati svetska ekonomska kriza, ima za posledicu sve veću otuđenost ljudi i življenje pod stresom. Sve manje je komunikacije, kako na opštem planu tako i u okviru korporacija i kompanija, što dovodi do manje produktivnosti i ostvarivanja manjih profita.

Zbog toga, ozbiljne kompanije se sve više bave ovim problemom, motivišući svoj menadžment i timove za bliže upoznavanje i komunikaciju, za jačanje motivacione volje, za ostvarivanje što boljih rezultata za kompaniju, a kompanije za njih stvaraju što bolji i humaniji ambijent za rad.

Da bi se podigao stepen inicijative, razvio timski duh, poboljšala komunikacija zaposlenih, da bi se zaposleni

oslobodili stresa, kompanije uvode posebne programe Team Buldinga, kroz koje se ostvaruje međuljudska komunikacija na rešavanju postavljenih zadataka i ostvarivanju ciljeva, jačanju volje učesnika, što čini važnu stavku u organizaciji kompanije, i jedan od osnova produktivnosti i efikasnosti poslovanja.

Zato je kompanija DMC VEKOL uvrstila u svoj poslovni profil organizaciju Team Bulding programa i sa svojim profesionalnim timom kreira progra-

me za različite kompanije, prema njihovim potrebama i ciljevima.

Sledi jedan od primera uspešno sprovedenog programa za jednu poznatu svetsku kompaniju.

U kompaniji DMC VEKOL u pripremi programa za poznatu svetsku kompaniju su zaključili da vodeći menadžment u regionu ostvaruje slabu međusobnu komunikaciju, što im zadaje ozbiljne probleme.

Kreirali su zadatak da snime film o jednom selu i da predstave selo kao prirodnu atrakciju. Ali takođe treba i da ostvare komunikaciju sa seoskim stanovništvom i da od njih dobiju podatke za film, da identifikuju njihove probleme kroz obavljanje intervjua, ali bez prevodilaca.

Drugi zadatak je bio da naprave Eko orkestar i da izvedu koncert sa karakterističnim seoskim melodijama, a da gosti na koncertu budu seljaci sa kojima su ostvarili komunikaciju prilikom snimanja filma. Zadaci su bili veoma teški, ali kako se radilo o vodećim menadžerima jedne vodeće kompanije, s razlogom se očekivalo da će ispuniti zadatak.

Neki od ovih nimalo lakih zadataka bili su: pronalaženje zaseoka pomoću

tada obavljaju neophodne poslove oko životinja, kao što su muža, hranjenje i čišćenje i tek onda se ide kućama.

Kod štala se odvija i društveni život uveče, pošto su štale obično grupisane od više domaćinstava. A uveče je najživlje. Nekada se tu posle teških radova, odmaralo, igralo i pevalo, čak su postojali celi orkestri koje su činili domaćini, i svako je znao da svira na nekom instrumentu.

Sada, međutim toga više nema, jer sela odumiru, i retka su ona sela koja još drže do svoje tradicije i običaja kao ovo selo.

karte, pronalaženje ikone i učenje o slavi i šta ona znači srpskom narodu, intervju sa seljacima i prikupljanje informacija o životu i radu na selu, učestvovanje u seoskim radovima, kao što je muža krava i poslovi u štali, zatim poseta mlekarniku i učestvovanje u pravljenju sira, ali i degustacija seoskih proizvoda i drugi.

Posebnost ovog sela vezana je za način i organizaciju života i rada u njemu. U Sitaricama kuća za stanovanje -

domaćinstvo je odvojeno od njiva koje se obrađuju i krupne domaće stoke, koja se smešta u štale locirane na imanjima, a ne u dvorištima.

U dvorištima seoskog domaćinstva su samo sitne životinje, koje hrani i odgaja domaćica kuće, a o krupnoj stoci se brinu drugi članovi domaćinstva.

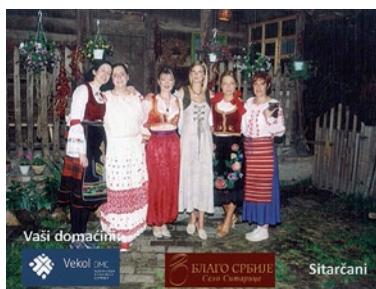

Kod štala se odvija ekonomski život jednog domaćinstva. Zaposleni ove poznate svetske kompanije se vraćaju štalama sa teških poljskih radova i

MANAGEMENT AND TEAM MOTIVATION TO REALIZE EVEN BETTER COMPANY RESULTS

The era of globalisation and technological revolution, followed by the world economic crisis, proved to cause an ever growing alienation of people and life under stress. There is less and less communication, both at general level and within corporations and companies, leading to lower productivity and decreased profits.

Respected companies are, therefore, dealing with the problem in a growing measure, motivating their managements and teams to get acquainted and communicate more closely,

empowering their motivational will to realize ever better results in the company, and making the companies create an improved and more humane work setting.

In order to elevate the degree of motivation, develop the team spirit, improve the communication between employees and relieve them from stress, the companies are introducing special Team Building programmes, which foster interpersonal communication in solving the set tasks and in realizing the goals, making the participants' will stronger, which is an important item in a company's organization and one of the foundation stones for productivity and business efficiency.

This is the reason why the company DMC VEKOL included in its business profile the Team Building organisa-

tional programme, creating with its professional team programmes for various companies, according to their needs and goals.

The following is an example of a successfully applied programme for a world renowned company.

When preparing the programme for a world renowned company, the company DMC VEKOL concluded that the leading management in the region has a poor communication, which creates serious problems to them.

They created a task to shoot a film about a village, presenting the village as a natural attraction.

But they also had to communicate with local villagers and get information for the film from them, identifying their problems via interviews, but without the aid of an interpreter.

The next assignment was to team up

and form an Eco band to perform a concert of characteristic bucolic melodies, with concert audience made up of villagers who communicated with them when they shot the film.

The duties were difficult enough, but as it was the case of top managers of a leading company it was expected they would complete the task successfully.

Some of the rather difficult duties were: finding a hamlet with the aid of a map, discovering an icon, and lectures on Orthodox Patron's Day (Slava) and its meaning to the Serbian people, interviews with farmers and gathering information on life and work in the countryside, taking part in village works, such as milking cows and stable duties, visit to a dairy farm and taking part in making cheese, tasting the farm produce, and similar.

Zagreb

GRAD MILIJUN SRCA

Zagreb je poslovno, gospodarsko, diplomatsko i kulturno središte Hrvatske, u kojem živi gotovo milijun stanovnika. Taj „grad milijun srca“, oduvijek je privlačio pozornost turista i posjetitelja, što je izrazito naglašeno u posljednje vrijeme, u očekivanju skorog ulaska Hrvatske u Europsku uniju. Blizina i dobra povezanost s ostalim europskim gradovima dodatno čine Zagreb idealnom kongresnom i incentive destinacijom.

Glavni grad Republike Hrvatske - Zagreb - jedna je od europskih najmlađih metropola, a istovremeno i jedan od najstarijih europskih gradova čija pisana povijest datira još iz 11. stoljeća. Zagreb je poslovno, gospodarsko, diplomatsko i kulturno središte Hrvatske, u kojem živi gotovo milijun stanovnika. Taj „grad milijun srca“, oduvijek je privlačio pozornost turista i posjetitelja, što je izrazito naglašeno u posljednje vrijeme, u očekivanju skorog ulaska Hrvatske u Europsku uniju.

Blizina i dobra povezanost s ostalim europskim gradovima dodatno čine Zagreb idealnom kongresnom i incentive destinacijom.

Zagreb je također grad znanosti i kulture. Mnogi vrsni zagrebački znanstvenici i umjetnici obogatili su hrvatsku i svjetsku kulturnu baštinu. Tu je smješteno pedesetak muzeja i galerija, te privatnih umjetničkih zbirki i dvadesetak kazališta i koncertnih dvorana. Od proljeća pa sve do jeseni, kada je vrijeme lijepo, mnoge izložbe i događaji sele se na zagrebačke ulice,

trgove i parkove. Tada Zagreb postaje jedna velika šarena pozornica koja svojom raznolikošću i šarmom posebno privlači strane i domaće posjetitelje.

Najznačajnije kulturne atrakcije i hoteli, od kojih mnogi pripadaju svjetski poznatim hotelskim lancima, smješteni su u samom središtu Zagreba, a međusobno su udaljeni na kojih 20-ak minuta lagane šetnje.

Zagreb nije samo poznat po svojim gotičkim crkvama, baroknim palačama, zgradama iz doba art decoa, prekrasnim urbanim parkovima, nego i po fascinantnoj atmosferi koja obavija povijesni Gornji Grad, a kojoj pridonosi i mnoštvo kafića i barova na čijim terasama se, uz lagano ispijanje kave, upija i osjeća pravo bilo grada.

Još jedna nezaobilazna zagrebačka atrakcija je tržnica Dolac - jedna od najživopisnijih europskih tržnica na otvorenom pod jarko crvenim veselim suncobranima. To je kultno mjesto gdje se isprepliću boje, mirisi i okusi, raznobojno svježe ubrano voće i povrće, svježe ulovljena riba iz Jadranskog mora, meso, sirevi i ostale mliječne prerađevine, te ostali proizvodi koji nas vraćaju natrag u djetinjstvo.

Iako geografski, kulturno i po baroknom nasljeđu pripada središnjoj Europi, u Zagrebu se, po mnogočemu, živi mediteranskim načinom života. Velik broj nezaobilaznih kafića s terasama, posebno u središtu grada čine

ga „najvećim europskim kafićem“. Zahvaljujući raznim utjecajima, Zagreb zrači i privlači posebnim šarmom, a njegovi stanovnici su poslovično dobri i srdačni domaćini.

U Zagrebu je moguće istovremeno biti u strogom centru grada i uživati u pravoj prirodi i zelenilu. U kojem god

Crkva Svetog Marka

smjeru krenuli, Zagreb privlači cijelim nizom svojih urbanih parkova s dugom tradicijom i izrazito vrijednim prirodnim naslijeđem.

Otisnemo li se malo dalje, Zagrebačka okolica sa svojom posebno netaknutom prirodom mami brojne posjetitelje; srednjovjekovni dvorci, romantične legende, vinogradi i vinske ceste, toplice, lokalni gastronomski specijaliteti i tradicionalno dobri

domaćini nikoga ne ostavljaju ravnodušnim. Zagreb ima tisuću lica, i svako je istovremeno i profesionalno i opušteno, i suvremeno i uronjeno u tisućljetnu tradiciju, i kulturno i gospodarsko, i urbano i avanturističko... ukratko, Zagreb je grad koji se jednostavno mora otkrivati i otkrivati, i opet nanovo otkrivati...

Bogata ponuda zagrebačkih smještajnih kapaciteta i prostora za održava-

nje kongresa i poslovnih sastanaka svake vrste zajedno sa starom gradskom jezgrom, bogatim povjesnim naslijeđem, živopisnom kulturnom ponudom, srdačnim domaćinima, opuštenom atmosferom, uzbudljivim gastronomskim avanturama i zadivljujućom okolicom, čine Zagreb idealnom destinacijom za kongrese, konferencije, poslovne sastanke i incentive putovanja. Zagreb raspolaže sa velikim brojem raznovidnih prostora za male i velike poslovne sastanke, te kongrese s velikim brojem delegata, a nudi i zanimljive mogućnosti za organizaciju nezaboravnih incentiva ili evenata.

Hoteli s 4 i 5 zvjezdica, dvorane smještene u samoj povijesnoj jezgri Zagreba, mnogobrojni muzeji i galerije, kao i profesionalni PCO-i i DMC-i pretvorit će Vaš kongres, incentive ili event u uspješni događaj o kojem će se još dugo pričati.

Zagreb je grad u kojem uspješan posao i dobra zabava uvijek idu zajedno.

Zlatan Muftić, direktor Kongresnog biroa Turističke zajednice grada Zagreba

SREDNJOEUROPSKI I MEDITERANSKI NAČIN ŽIVOTA - ODLIČAN SPOJ ZA DOGAĐAJE KOJI SE IZDVAJAJU

Zlatan Muftić, direktor Kongresnog biroa Turističke zajednice grada Zagreba, kao i direktor sektora Turističkog proizvoda TZ grada Zagreba. Rođen je u Zagrebu 1972. godine. Diplomirani je inženjer aeroprometa, a trenutno studira na postdiplomskom studiju "Menadžment turizma" na Ekonomskom fakultetu u Zagrebu. U turizmu radi od 1993. godine, gdje je počeo kao turistički informator, a radio je i kao stručni saradnik za elektronsku promociju i informacije. Od 2002. godine radi na poslovima vezanim za promociju Zagreba kao kongresne i incentive destinacije, što mu je i glavno područje interesa.

1. Koje su, po Vašem mišljenju osnovne prednosti grada Zagreba kao kongresne destinacije, a koji su osnovni nedostaci?

Osnovne prednosti bih podijelio u nekoliko kategorija. Zagreb je grad bogate kulturno-povijesne baštine i prijateljske atmosfere u kojem srednjoeuropski i mediteranski način života čine jedinstven spoj. Brojne gradske atrakcije, kao i većina kongresnih hotela nalaze se u samom centru grada, svega nekoliko minuta udaljene od glavnog gradskog trga. Zagreb je jednako tako bogat posebnim povijesnim prostorima poput

muzeja i galerija, koje je moguće koristiti za skupove i ostale vrste događanja. Osnovni nedostatak je nepostojanje polivalentnog kongresnog centra koji bi mogao primiti veći broj delegata (4.000 – 5.000). Jednako tako, Zagrebu je potreban novi putnički terminal na aerodromu koji bi omogućio višu kvalitetu u zračnom prometu.

2. Da li postoje naznake za izgradnju adekvatnog kongresnog centra u Zagrebu koji bi omogućio dobijanje velikih međunarodnih kongresa?

Nažalost, vrijeme recesije i krize posljednjih godina nije išlo u prilog velikim investicijama. Kad je u pitanju kongresni centar postoje već i pripremljena idejna rješenja, kao i prijedlozi potencijalnih lokacija, no odluku o tome donijet će Grad kao glavni investitor. Vjerujemo da će se to dogoditi u narednom razdoblju.

3. Jedan od osnovnih zadataka kongresnog biroa jeste i promocija kongresno-incentive ponude određenog grada/zemlje. Koje su najznačajnije aktivnosti koje je TZGZ (Turistička Zajednica Grada Zagreba) sprovela u ovom pravcu?

Kongresni ured aktivno promovira Zagreb na svim relevantnim međunarodnim kongresno-incentive burzama, zajednički sa predstavnicima kongresne industrije grada, dakle, PCO - DMC agencijama i hotelijerima. Organiziramo studijska putovanja i inspeksijske posjete za organizatore kongresa i incentive putovanja, kao i za predstavnike medija. Osim toga organiziramo vlastite i participiramo na posebnim prezentacijama i radionicama organiziranim od strane Hrvatskog kongresnog i insentiv ureda. Nadalje, TZGZ kao i njezin Kongresni ured produciraju različite promotivne materijale: brošure, filmove, CD-e, web stranice posebno za turističku, a posebno za kongresnu ponudu.

4. Možete li izdvojiti neke najznačajnije događaje koji se ove godine odigravaju u Zagrebu?

Prema podacima Državnog zavoda za statistiku samo u prvom tromjesečju u Zagrebu je održano više od 600 poslovnih skupova. Od značajnijih skupova koji su u najavi Kongresnog ureda TZGZ do kraja godine, spomenuo bih kongrese: 8th International Conference on European Energy Market, 10th International Conference on Live Maintenance, 3rd International Conference of Medical Tourism & Travel medicine, ICOM CECA Annual Conference 2011. Najavljen je i svjetski kongres turističkih novinara, kao i brojni drugi skupovi.

5. Koliko su značajna tržišta okolnih zemalja za kongresni turizam grada Zagreba? Postoje li određeni planovi po ovom pitanju?

Svim tržištima, pristupamo s osobitom pažnjom, te ćemo u tom smislu nastojati i dalje unapređivati naše aktivnosti, tako i prema okolnim zemljama. To je posebno važno u kongresno-incentive djelatnosti gdje destinacije konkuriraju za velik broj istih događanja različitih međunarodnih organizacija. Susjedne i nama bliže zemlje, značajne su, osobito kao potencijalni klijenti za organizaciju svojih korporativnih događanja, incentive putovanja, team buildinga i drugih sličnih aktivnosti. Jednako tako, važne su i za organizaciju kongresa.

Zlatan Muftić, Director, Zagreb Convention Bureau

MID-EUROPEAN AND MEDITERRANEAN WAY OF LIFE - EXCELLENT BLEND FOR EXCEPTIONAL EVENTS

Mr. Zlatan Muftić, Director of the Zagreb Convention Bureau, and general manager of the Zagreb's Tourist Sector. He was born in Zagreb in 1972. He is the air traffic engineer, presently at the "Tourism Management" at the Faculty of Economy post-graduate studies in Zagreb. He has been working in tourism ever since 1993, beginning as a tourist informer, working also as an expert associate for the electronic promotion and information. Since 2002 he has been involved in activities related to promoting the city of Zagreb as a congress and incentive destination, as his main field of interest.

1. What are the main advantage points, according to your opinion, that the city of Zagreb has as a congress destination, and what are the main flaws?

I would separate the main advantages into several categories. Zagreb is the city with rich cultural-historic heritage and a friendly atmosphere in which the mid-European and Mediterranean ways of life make a unique blend. Numerous city's attractions and most of the congress hotels are located in the very centre of the town, just a few minutes away from the main city square. Zagreb is also abundant with special historic venues, such as museums and galleries, which can also be used for conventions and other sorts of events. The main drawback is the absence of a polyvalent Congress Centre which could host a larger number of delegates (4.000 – 5.000). Likewise, Zagreb needs a new passenger terminal at the airport that would secure a higher quality of air traffic.

2. Are there indications for the construction of an adequate Congress Centre in Zagreb, which would allow obtaining large-scale international conferences?

Unfortunately, the times of recession and crisis in the last few years were not favourable for great investments. As for the congress centre, there are preliminary designs prepared already, along with some proposals for potential locations, but the final decision will be reached by the City as the chief investor. We trust it will happen in the next period of time.

3. One of the main tasks of the Congress Bureau is to promote the congress and incentive offers of a particular city / country. What are the most important activities that the Zagreb Tourist Board realized in this direction?

The Congress Bureau is actively promoting Zagreb at all relevant international congress-incentive tradeshows together with the meetings industry representatives of the city, that is, PCO-DMC agencies and hoteliers. We organize study trips and sites inspection for the organizers of congresses and incentives, as well as for the media representatives. Besides, we also organize our own presentations or take part at some special presentations and workshops organized by the Croatian Congress and Incentive Office. Furthermore, Zagreb Tourist Board and its Convention Bureau produce various promotional printed matters: brochures, films, CDs, web pages for the tourist and the congress offers separately.

4. Can you point out some of the most important events which are to take place in Zagreb this year?

According to data presented by the State Statistics Institution, there were more than 600 business meetings in Zagreb in the first quarter only. Out of the relevant assemblies announced by the Zagreb Convention Bureau until the end of this year, I would

like to mention several congresses: 8th International Conference on European Energy Market, 10th International Conference on Live Maintenance, 3rd International Conference of Medical Tourism & Travel Medicine, ICOM CECA Annual Conference 2011. The world congress of tourist journalists was also announced, along with numerous other conventions.

5. How important are the markets of the neighbouring countries for the meetings industry of the city of Zagreb? Are there certain plans regarding this issue?

We approach all markets with particular attention, and we shall strive in that sense to further improve our activities, as well as those aimed at neighbouring countries. This is especially significant in the congress-incentive field, where destinations compete for a large number of events organized by various international organizations. The neighbouring countries and those in the vicinity are important, particularly as potential clients for the organization of their own corporative events, incentives, team building, and other similar activities. Similarly, they are also important for the organization of congresses.

Hotel „Dubrovnik“ – Vaš domaćin u Zagrebu

U SRCU METROPOLE

Nakon posljednjih rekonstrukcija koje su upravo dovršene, hotel „Dubrovnik“ je u svom interijeru doživio preporod – nudi Vam visokovrijedne sadržaje poslovnih hotela u samom srcu metropole, praktički na par koraka od svega što je najvažnije u Zagrebu i Hrvatskoj.

Izgrađen tridesetih godina prošloga stoljeća na južnom obodu središnjeg zagrebačkog trga, hotel „Dubrovnik“ svojom arhitekturom i velikim panoramskim prozorima okrenutim prema trgu, kao svojevrsnoj „živoj kuli“, doimlje se mnogo mlađim, gotovo suvremenim. Aneks hotela, stakleni dio, kako ga popularno zovu, izgrađen pak osamdesetih, sasvim je duhom i konceptom u sadašnjim trendovima...

Nakon posljednjih rekonstrukcija koje su upravo dovršene, „Dubrovnik“ je u svom interijeru doživio preporod – moderne prostrane sobe s podosta originalnih i duhovitih detalja, svim uslugama koje su potrebne današnjem poslovnom čovjeku na dohvat ruke (i laptopa) - nudi Vam visokovrijedne sadržaje poslovnih hotela u samom srcu metropole, praktički na par koraka od svega što je najvažnije u Zagrebu i Hrvatskoj.

Nije stoga ni čudno da su tijekom tjedna najbrojniji gosti hotela upravo poslovni ljudi koji dolaze u Zagreb i koji u hotelu „Dubrovnik“ mogu naći pouzdanog partnera. Svoj poslovni karakter hotel „Dubrovnik“ posebno podcrtava i novouređenim kongresnim centrom u kojem se može okupiti tristotinjak sudionika u velikoj multifunkcionalnoj dvorani, te gotovo još toliko u nekoliko manjih dvorana opremljenih najmodernijom konferencijskom tehnologijom.

Polivalentne dvorane pogodne su osim za održavanje manjih kongresa i za stručne skupove, seminare, prezentacije, korporacijske svečanosti, promocije, ali tijekom vikenda i za organizaciju svadbenih svečanosti. Poseban ugođaj svijetala svakom organizatoru omogućava da dvorane i predvorje „oboji svojim bojama“ i da na taj način „personificira“ prostor. Hotel „Dubrovnik“ gostima nudi i vlastiti parkirni prostor što mu daje još jednu prednost i podcrtava poslovni karakter.

Ali osim visokosofisticiranih poslovnih sadržaja, hotel „Dubrovnik“ ima i svoju dušu. Ona se ogleda već na prvom koraku, u njegovoj nadaleko poznatoj kavani u kojoj su sjedila najveća imena hrvatske politike, kulture, sporta, kao i mnogi velikani koji su posjećivali Zagreb. Poput najcjeljenijih srednjoeuropskih kavana i

ova u hotelu Dubrovnik može se podičiti mirnom atmosferom, izvrsnom poslugom i nezaboravnim kolačima izrađenim po vlastitoj recepturi hotelskih slastičara.

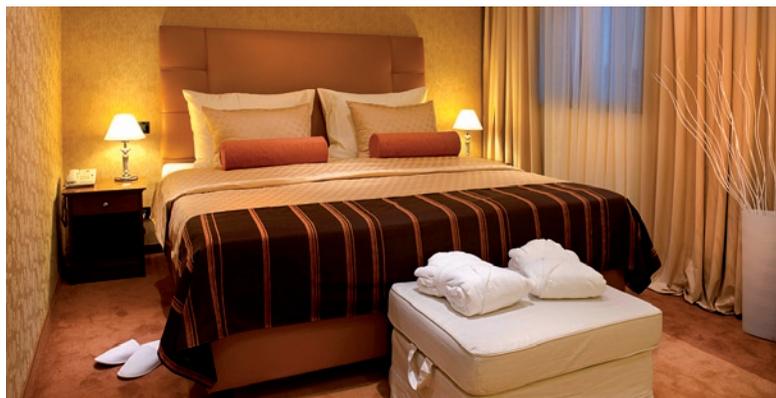

Ako smo za sobe rekli da svojom prostranošću i udobnošću pružaju osjećaj potpunog opuštanja, onda bi bilo nepravredno ne spomenuti restoran Piccolo Mondo koji uz vrhunsku talijansku kuhinju nudi i probrana jela međunarodne kuhinje te naravno specijalitete Zagorja i Hrvatske.

Zbog svega navedenoga hotel „Dubrovnik“ se tijekom vikenda pretvara u pravo turističko odredište gostiju koji dolaze u posjet Zagrebu kao kulturnoj i povijesnoj metropoli.

U stalnom traganju da gostima ponudi više, hotel „Dubrovnik“ priprema i niz promotivnih paketa za svoje goste, posebno one koji se ponovo vraćaju. Među recentnim akcijama jesu i zajednički turistički paketi s ponudom obližnjeg Zagorja u kojima se gostima hotela nudi i povoljan posjet zagorskim termama, s kušanjem autohtone kuhinje i uživanja u originalnoj ponudi zagorskih agroturizama, kroz jednodnevne ili poludnevne izlete.

I kako god okrenuli, bili vi poslovni čovjek ili znatizeljni turist, u hotelu „Dubrovnik“ svi će naći pravog partnera u Zagrebu.

Zato se vrsni djelatnici ovoga hotela i vole predstavljati riječju: „Hotel „Dubrovnik“ - Vaš domaćin u Zagrebu.“

Agencija Eures tim

POVJERENJE ZA USPJEŠNU SURADNJU

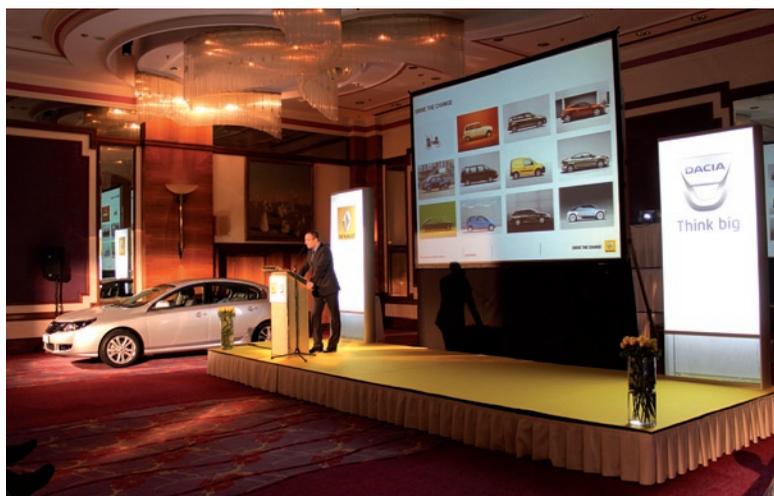

Dugačka je lista klijenata s kojima agencija za profesionalnu organizaciju događaja Eures tim iz Zagreba surađuje, međutim ovog puta željeli smo поближе popričati o suradnji s **Tanjom Moguljak**, na poziciji Quality/Methodes Manager, tvrtke Renault Nissan Hrvatska d.o.o., na području Adriatic regije.

1. Koliko dugo traje saradnja Renault Nissana i agencije Eures tim?

Suradnja je na obostrano zadovoljstvo započela 2006. godine i s većim ili manjim intenzitetom traje i danas.

2. Šta je glavni sastojak za dugogodišnju saradnju između Renault Nissana i agencije Eures tim?

Povjerenje. Izgradili smo profesionalni i ljudski odnos koji odlično funkcionira a to nije lako u današnjem poslo-

vnom svijetu. Naravno, to ne bi bilo moguće da nemamo povjerenje u agenciju koja je postala naš strateški partner u svim oblicima evenata koje organiziramo.

3. Šta to čini agenciju Eures tim ispred svih drugih s kojima ste radili (kada govorimo o organizaciji događaja, edukacija, sastanaka, tim bildinga za vašu kompaniju)?

Ljudi. Visok nivo profesionalnosti cijelog tima koji druge agencije ili nemaju ili jednostavno ne mogu pružiti. Da ne zvučimo pretenciozno ali za njih nema stvari koju ne mogu odraditi i to u najkraćem roku, pouzdano, profesionalno s svojim posebnim „štihom“.

4. Najdraži event u organizaciji Eures tima?

Zadnji Team building za regionalni Renault-Nissan Adriatic tim. Bila sam u organizacijskom timu i kasnije bila dio eventa pa znam šta smo sve prošli ali rezultat koji smo dobili na kraju, nadmašio je sva naša očekivanja.

5. Rado se sećate...

...početka naše suradnje i našeg prvog formalnog sastanka. Nakon toga uslijedilo je puno lijepih trenutaka koje smo proveli i odradili zajedno.

6. Šta očekujete od buduće saradnje?

Suradnja koju imamo danas je stvarno odlična i veselim se što ćemo i ubuduće timski raditi neke nove evente na obostrano zadovoljstvo.

Eures tim agency

TRUST IS THE KEY FOR SUCCESSFUL COOPERATION

Agency for professional event organization Eures tim has a long list of clients, however this time we would like to closely talk about their cooperation with **Tanja Moguljak** that holds the position of Quality/Methodes Manager at Nissan company in the Adriatic region.

1. How long is the cooperation between Renault Nissan and agency Eures tim?

The cooperation has started to mutual satisfaction at 2006 and has continued, more or less intensity, until today.

2. What is the secret for such a long cooperation between Renault Nissan and agency Eures tim?

Trust. We have managed to build a professional and human relationship that functions great and this is certainly not easy in business world today. Of course, this would not be possible if we were not so confident in the agency that has become our strategic partner in all types of events Renault Nissan has been organizing.

3. What gives the agency Eures tim the advantage in front of all other agencies you have been working with (in the sense of the organization of events, educational seminars, meetings and team buildings for your company)?

People. It is a high level of professionalism of the entire team that other agencies other do not have or simply cannot provide. I would not like to sound pretentious but there is nothing

they are not capable of performing in the shortest timeline, reliably, professionally with their special „touch“.

4. The most memorable event organized by Eures tim?

The very last team building event for the regional Renault Nissan Adriatic team. I had the opportunity to be a part of organizational team and later on as an attendee, therefore I was perfectly aware what we had to go through and at the end to achieve a result that exceeded all our expectations.

5. I gladly remember...

...the beginning of our cooperation and our first formal meeting. After that there were many wonderful mo-

ments we have spent together and events we have worked on.

6. What do you expect from the further cooperation?

Još uvek jedinstvena i atraktivna MICE destinacija

KONGRESNA INDUSTRIJA U JAPANU NASTAVLJA SVOJIM TOKOM

Nacionalna turistička organizacija Japana podržaće napore pri ponovnoj izgradnji, tako što će nastaviti sa svojom misijom pozitivne promocije Japana kao dinamične, divne destinacije, sa jedinstvenim kulturnim atrakcijama, uzbudljivim gradovima i prijateljskim ljudima.

Tadatashi Mamiya,
predsednik Nacionalne turističke organizacije Japana

Prošlo je nekoliko meseci od kada su zemljotres i cunami pogodili obalu u oblasti Tohoku u Japanu. Veoma smo zahvalni na obilnoj pomoći i podršci koje smo primili iz celog sveta.

Podrška je bila izuzetno važna za nas, jer Japanci su odlučni u nameri da sve napore ulože u akcije obnove, u odgovor na izlive podrške i solidarnosti koje smo primili od globalne zajednice.

Nacionalna turistička organizacija Japana podržaće napore pri ponovnoj izgradnji, tako što će nastaviti sa svojom misijom pozitivne promocije Japana kao dinamične, divne destinacije, sa jedinstvenim kulturnim atrakcijama, uzbudljivim gradovima i prijateljskim ljudima.

Nastavićemo sa distribucijom poslednjih ažuriranih informacija u pogledu događaja u Japanu koje organizuje MICE holding, kao što ćemo nastaviti i sa našim promotivnim aktivnostima, kako bismo ohrabрили mnoge ljude da posete Japan. U tom cilju će vaša podrška i saradnja biti neophodni. Većina pokrajina u Japanu nije bila pogođena zemljotresom ili reperkusijama iz nuklearne elektrane u Fukušimi, pa vas pozivamo da sami vidite sadašnje

stanje Japana lično. Naročito smo zadovoljni što možemo da izvestimo da se Sendai, jedan od glavnih gradova u regionu Tohoku, bezbedno oporavio od tragičnog cunamija.

Sendai je započeo sa oživljavanjem energetske resursa i sad je ponovo spreman da smesti i ugosti sastanke. Takođe nam je drago što možemo da najavimo da su mnogi međunarodni skupovi, uključujući 24. Svetski kongres arhitekture (UIA 2011 Tokio), ili 23. Kongres Međunarodnog društva za trombozu i hemostazu – 57. Godišnji SSC sastanak (ISTH 2011 Kjoto), potvrdili da će se njihove konferencije održati u Japanu kako je i zakazano

tokom 2011. godine. Nadamo se da će svetski mediji i MICE profesionalci posetiti Japan i iz prve ruke opaziti da je Japan još uvek jedinstvena i atraktivna MICE destinacija. Nastavljamo da dočekujemo posetioce iz celog sveta sa nepromenjenim duhom gostoprimstva, kao što smo činili i do sada. Narod Japana je čvrsto rešen da uloži sve svoje napore u oporavak i obnovu, a inostrani posetioci nam pružaju velike količine ohrabrenja kao i solidarnosti u ovom teškom periodu.

Still a unique and attractive MICE destination

MEETING INDUSTRY CONTINUES AS NORMAL IN JAPAN

The Japan National Tourism Organization will support the rebuilding efforts by going forward with our mission to positively promote Japan as a vibrant, beautiful destination, with unique cultural attractions, exciting cities, and friendly people.

Tadatashi Mamiya, President
Japan National Tourism Organization

A few months have now passed since the earthquake and tsunami hit the coast of the Tohoku region in Japan. We are very grateful for the generous contributions and support that we have received from all over the world. The support has been very important to us, and the Japanese people are determined to put all of their efforts into recovery actions, in response to the outpouring of encouragement and solidarity that we have received from the global community.

The Japan National Tourism Organization will support the rebuilding efforts by going forward with our mission to positively promote Japan as a vibrant, beautiful destination, with unique cultural attractions, exciting cities, and friendly people.

We will continue to distribute the latest detailed and accurate information with respect to holding MICE events in Japan, as well as to actively develop our promotional activities, in order to encourage many people to visit Japan. To this end, your support and cooperation are indispensable.

Most of Japan's regions were unaffected by the earthquake and nuclear

plant repercussions in Fukushima, and we invite you to see the present condition of Japan for yourselves.

We are especially happy to report that Sendai, one of the major cities in the Tohoku region, has safely recovered from the tragic tsunami. Sendai has begun to revive its energy resources, and is now ready to accommodate and host meetings again. We are also pleased to announce that many international meetings, including The 24th World Congress of Architecture (UIA 2011 Tokyo), and The 23rd Congress of the International Society on Thrombosis and Haemostasis 57th Annual SSC meeting (ISTH 2011 Kyoto), have confirmed that their conferences will be held in Japan as scheduled in 2011.

We hope the world's media and MICE professionals will visit Japan, and observe first-hand how Japan is still a unique and attractive MICE destination. We continue to welcome visitors from all over the world with an unchanging spirit of hospitality, as we have always done. The Japanese people are firmly resolved to put all of our effort into recovery and rebuilding efforts, and visitors from over-

seas have given us a large amount of encouragement and feelings of solidarity in a difficult time.

Restoran Prova u Tivtu

LUKSUZNI RESTORAN U „UTROBI BRODA“

Boravak u restoranu Prova zaista predstavlja užitek za svakog gosta, bilo da želi da u udobnom modernom ambijentu popije jutarnju kafu ili da sam ili sa svojom porodicom ili poslovnim partnerima upotpuni svoja gastronomska čula.

Ukoliko prolazite kroz Tivat u Crnoj Gori, pažnju će vam svakako privući „nasukani drveni brod“ od kavkaske tikovine. U „utrobi broda“ nalazi se vrhunski restoran „Prova“, stecište gostiju prefinjenog gastronomskog ukusa. Ali umesto ambijenta nekakvog starog jedrenjaka ili tradicionalnog restorana poput dalmatinske konobe ili italijanske ribarske kantine dočekaće vas moderni, minimalistički enterijer u kome dominiraju metal, drvo i staklo. Pažnju gostiju privlače i unikatni lusteri od plastike i stakla, stilizovane replike korala, školjki, algi i ostalih raskoši morskih dubina, kao i deo poda od kaljenog stakla ispod koga se nalazi oblutak sa plaže. Enterijer je projektovala Italijanka *Elena Brusa Pasque*, dok je lustere kreirala darovita primenjena umetnica, takođe Italijanka, *Raffaella Bandera*.

Pored zatvorenog restorana sa internacionalnim mediteranskim menijem, „Prova“ ima i dve bašte. Jedna je na šetalištu, ispod palmi, pravi lounge, za one koji prvu kafu vole da piju na suncu, uz šum morskih talasa, a druga na „palubi“, iznad restorana, na koju se stiže metalnim brodskim skalama. Iz restorana i lounge otvara se pogled na zaliv i poluostrvo Lušticu.

Iako je novootvoren restoran, već je stekao reputaciju, naročito među inostranim gostima, koji su kupili luksuzne apartmane u marini Porto Montenegro.

„Nautičari i vlasnici luksuznih jahti i krstaša su već naši stalni gosti. Internacionalna mediteranska kuhinja, koja se bazira na uvek svežim i domaćim namirnicama, razvijena vinska karta, veliki izbor aperitiva, jedini su recept da „Prova“ postane elitni restoran za elitne goste“ – govori menadžer *Mladen Blagojević* koji svoja iskustva sa putovanja gastronomsko-vinskim putevima Hrvatske, Slovenije i Italije primenjuje u restoranu „Prova“.

Restoran preporučuje domaće potaže kao što su potaž od raštana ili potaž od bundeve, omiljen među pariškim piscima i slikarima. Ako još probate stek od lososa sa rižotom od brokule i raznih mirođija, pa sve to začinite pikantnim, kiselo-slatkim vinskim sosom osećaćete se kao da ste drage prijatelje častili ručkom na Azurnoj obali. Zato restoran „Prova“ već postaje model i uzor ostalim crnogorskim restoraterima jer obogaćuje gastronomsku

ponudu pružajući gostima sve ono na šta su navikli krstareći obalama Grčke, Italije i Španije. Restoran je u sastavu HTP „Primorje“, a u ovoj kompaniji su svesni da su otvaranjem „Prove“ obogatili turističku ponudu grada i crnogorskog primorja.

– „Sa Provom pokazujemo u kojem pravcu se želimo razvijati“, kaže direktor HTP „Primorje“, *Predrag Jelušić*. „Atraktivan ambijent u najperspektivnijem crnogorskom turističkom gradu traži kvalitetnu ponudu sa dobrim programima. Po ovom modelu, sa istim arhitektom, naš hotel „Palma“ u Tivtu, će biti rekonstruiran i podignut na nivo od 4 zvezdice“.

Ne morate zaploviti, dovoljno je da se nađete na provi (bokeljski lokalizam za pramac), na brodu koji vas čeka „usidren“ u Tivtu, na obali Iva Vizina. Boravak u restoranu Prova zaista predstavlja užitek za svakog gosta, bilo da želi da u udobnom modernom ambijentu popije jutarnju kafu ili da sam ili sa svojom porodicom ili poslovnim partnerima upotpuni svoja gastronomska čula.

Losos u sosu od lajma

Sastojci: 250 gr lososa, 100 gr kuvane riže, 0.3 dl bijelog vina, 2 dl crnog vina, 50 gr smeđeg šećera, 0.5 dl soka od lajma, 1 kora od lajma, 20 gr mrkve, 20 gr celera, 20 gr paprike, 5 gr soli, 3 gr bibera, 3 gr vegete, 10 gr soja sosa, 10 gr sos od ostriga.

Ušpinovati (karamelizirati) šećer, zaliti s vinom i pustiti da dobro prokuva, zatim dodati sok od lajma, so, biber, vegetu, soja sos, sos od ostriga, koru od lajma i kuvati dok ne dobije odgovarajuću gustinu. Losos file usoliti i premazati uljem i bijelim lukom, peći na roštilju, pokriti folijom zbog ravnomjernog pečenja i voditi računa da se ne prepeče. Rižoto: povreće (mrkva, celer, paprika) izdinstati u odgovarajućoj posudi sa malo bijelog vina, dodati kuvanu rižu, zaliti s malo vode, začiniti i kuvati dok se sve lijepo ne sjedini.

Restaurant Prova in Tivat

LUXURY RESTAURANT INSIDE "THE SHIP'S BELLY"

Sojourn in restaurant Prova is truly delightful for each of our guests, whether he or she wants to drink the morning coffee in a cosy modern setting or to sharpen his or her gastronomic sense along with the family or alone.

If you're passing through Tivat in Montenegro your attention will surely be drawn to a "cast ashore wooden ship" made of Caucasian teakwood. Inside the "ship's belly" is the excellent restaurant "Prova", meeting place for sophisticated gourmet guests. But instead of entering the setting of an old sailboat or a traditional restaurant like a Dalmatian tavern or an Italian fish canteen, you will be greeted by a modern, minimalistic interior dominated by metal, wood, and glass. The guests' attention is drawn by uni-

que chandeliers made of plastic and glass, stylish replicas of corals, shells, algae and other riches from the sea depths, a part of the flooring made of tempered glass with beach pebbles underneath. Interior design is by the Italian designer *Elena Brusa Pasque*, and the chandeliers were created by a gifted applied artist who is also Italian *Raffaella Bandera*. Beside its indoor restaurant with international Mediterranean menu, "Prova" also has two open-air cafes. One is on the promenade beneath the palm trees, a real lounge for those who like to sip their first morning coffee in the sunlight with waves murmuring, and the other one is on the "ship deck" above the restaurant, so you have to climb a few metal ladder steps. The restaurant and lounge view opens up to the bay and the Luštica peninsula.

Even though this is a newly opened restaurant, it already has a good reputation among foreign tourists in parti-

cular, so much so that some bought luxury apartments in the Porto Montenegro marina.

- "Navigators and owners of luxury yachts and cruisers are already our regular guests. International Mediterranean cuisine, based on always fresh home-grown foodstuffs, extended wine card, a large assortment of aperitifs, these are ingredients for the recipe that made "Prova" an élite restaurant for the élite guests", said the manager Mr. *Mladen Blagojević* who applied experiences he gathered in his gastronomic-wine travels throughout Croatia, Slovenia, and Italy in the restaurant "Prova". The restaurant recommends home-made pottages, such as brassica or pumpkin pottage, favoured by Parisian authors and painters. If you also get a taste of a salmon steak with rice, broccoli and various dills, spiced with piquant sour-sweet wine sauce, you will get the impression of treating your friends with a dinner at Côte d'Azur. That is why our restaurant "Prova" has already become a model and ideal to other Montenegrin restaurateurs, as it enriches the gastronomic service offering the guests all the pleasures they are used to when cruising the shores of Greece, Italy or Spain. The restaurant is managed by HTP "Primorje", and the company is aware that by opening "Prova" they enhanced the tourist offer of Tivat and the Montenegrin coast.

- "With Prova we showed what is the direction we are heading to", says director of HTP "Primorje" *Predrag Jelusić*. "Attractive ambience in the most prospective Montenegrin tourist town requires a quality service and good programmes. Following this model with the same architect, our "Palma" Hotel in Tivat will be reconstructed and it will advance to the level of 4 star".

You don't have to sail, all it requires is for you to find yourself on the prow (local term for ship's bow in Boka), on the ship waiting for you anchored in Tivat, on Ivo Vizina Strand. Sojourn in restaurant Prova is truly delightful for each of our guests, whether he or she wants to drink the morning coffee in a cosy modern setting or to sharpen his or her gastronomic sense along with the family or alone.

Sajam EIBTM - istraživanje

INDUSTRIJA I TRENDovi – STVARI SE POLAKO POKREĆU

Kako profesionalci vide 2011. godinu? Hoće li se njihov ili budžet njihovih klijenata uvećati? Ove godine krivulja jasno izgleda bolje, mada bi i dalje trebalo da držimo palčeve stisnute bar neko vreme. Ako više od trećine profesionalaca vide nepromenjeno

tržište 2011. godine u poređenju sa 2010., a 10% čak vidi pogoršanje situacije, njih 55% predviđaju porast – definitivno je to razlog za radovanje. Čak iako je rast još uvek umeren, a samo njih 11% predviđa rast viši od 20%, pokret nagore već je kretanje u

dobrom pravcu! Ovi nalazi u skladu su sa Izveštajem o industrijskom trendu Roba Davidsona koji je predstavljen na Sajmu EIBTM 2010., a u njemu on pominje da je najgore prošlo i da je tržište spremno za neznatan oporavak tokom 2011. godine.

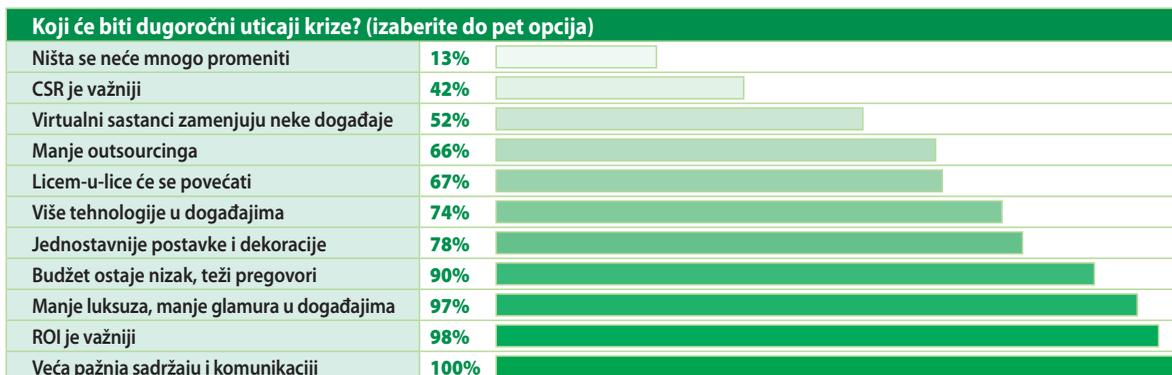

Efekat recesije: snažnija industrija

Koji efekti recesije će biti trajni? Hoće li značajno promeniti kongresnu industriju?

Centar pažnje je na dve pozitivne promene u načinu na koji radimo:

više pažnje sadržaju i veća važnost ROI (povraćaj investicija). Ova industrija se udaljava od toga da samo organizuje lepa putovanja i proslave, a fokusira se sve više na stvarnu funkciju i ciljeve sastanka. Druge promene imaju svoj negativan uticaj na ovu industriju: manje luksuza, niži

budžeti i jednostavnije postavke. Takođe, očekuje se više tehnologije - a to je pozitivna vest, jer svaka industrija koja integriše tehnologiju ima tendenciju da poveća svoj kvalitet i produktivnost. Virtualni sastanci ne deluju kao pretnja za licem-u-lice susret.

Bitna cena, ali i kvalitet

Kada ste u stisci s novcem, oko ide pravo na karticu s cenom. Profesionalci u

kongresnoj industriji odmerili su pet kupovnih kriterijuma kada plaćaju proizvode ili usluge za svoje sastanke. Iznenađujuće je da je cena dospela na treće mesto. Na prvom mestu je kva-

litet, a prate ga dobre usluge. Brend nema relativno veliku težinu. A opet, korporativna socijalna odgovornost nije se kotirala najbolje.

EIBTM Show research

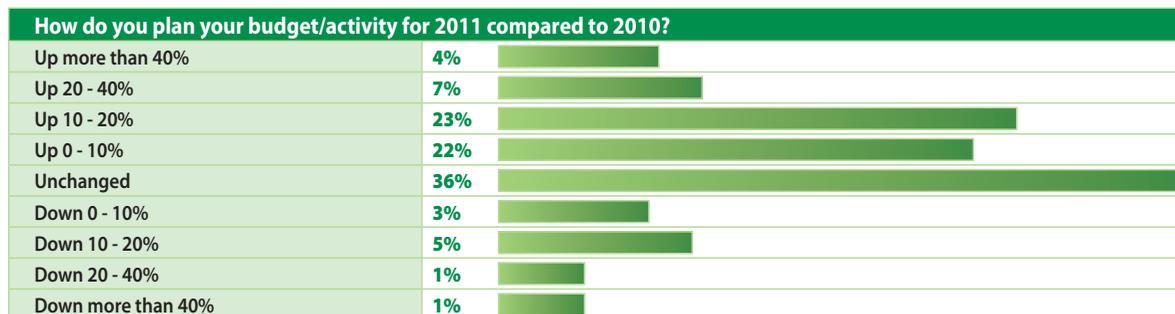

INDUSTRY AND TRENDS - THINGS SLOWLY PICK UP

How do professionals see 2011? Will their budget or their clients' budget increase? This year the curve looks clearly better even though we should just keep the fingers crossed for awhile more. If more than a third professionals see unchanged market in

2011 as compared to 2010, and 10% even see a worsening of the situation, 55% foresee a pick up - a definite reason to rejoice.

Even though the increase is still moderate, as only 11% foresee a growth higher than 20%, moving up is already

moving in the right direction! These findings are in keeping with Rob Davidson's Industry Trend Report presented on EIBTM show 2010, in which he mentioned that the worst is over and the market is poised for a slight recovery in 2011.

Effect of the recession: a smarter industry

What will be the durable effects of the recession? Will it change meeting industry in a significant way?

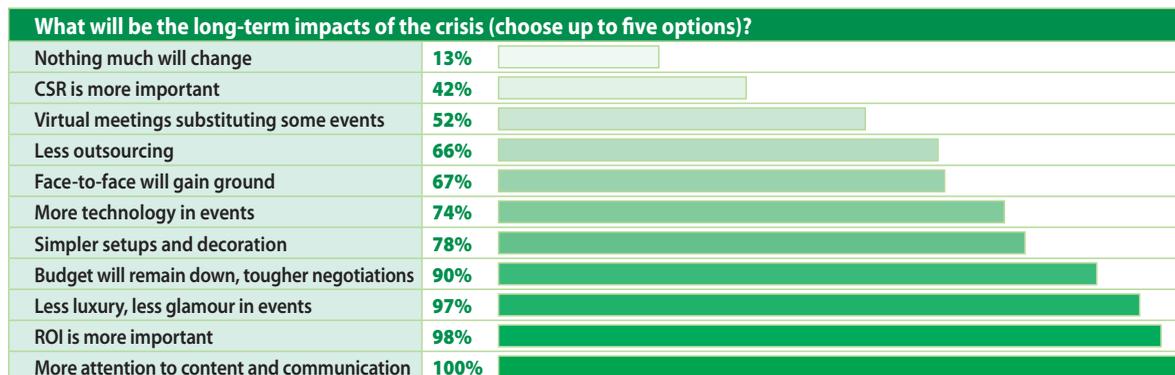

The focus is on two positive changes in the way we work: more attention

to content and higher importance of ROI. This industry is moving away from just organizing nice trips and celebrations and is focusing more on the real function and objectives of meetings.

Other changes have their negative impact on the industry: less luxury,

lower budgets and simpler setups. More technology is also expected - a positive news, as any industry who integrates technology tends to improve its quality and productivity.

Virtual meetings do not look like a threat for face-to-face.

Beyond the price tag, quality still matters

When money is tight, the eye goes directly to the price tag. Meeting pro-

professionals weighted five purchasing criteria when buying products or services for their meetings.

The surprising verdict is that price came in third place. On first place was

quality, followed by service. Brand weights relatively little. And again, Corporate Social Responsibility did not rank very well.

The event delivers three days of focused access to a dynamic business environment, thought provoking professional education and business networks for Exhibitors, Hosted Buyers and Trade Visitors.

IFT Međunarodni sajam turizma u Beogradu

PLANOVI ZA LETO UVELIKO POČELI

Predstavilo se oko 900 izlagača iz 43 zemlje u šest hala Beogradskog sajma, kao i 105 vinara iz deset zemalja. Zemlja partner Sajma turizma bila je Hrvatska, koja je takođe imala i najmasovniji nastup.

Pod sloganom „Danas započnite leto!“ u Beogradu se, od 24. do 27. februara 2011. godine, održao 33. IFT Međunarodni sajam turizma.

Pored ponude turističkih aranžmana u okviru Sajma turizma ove godine, na izložbenom prostoru od preko 32.000 m², održao se i drugi po redu Sajam vina, pod nazivom Beo Wine Fair.

Na ovogodišnjem Sajmu vina, Ministarstvo ekonomije je predstavilo aranžman „Putevi vina Srbije“, a TOS „Mapu vinskih puteva Srbije“.

Prvi put, na ovogodišnjem sajmu svoju turističku i gastronomsku ponudu predstavila je Južnoafrička Republika, a nastupile su i Indija, Peru, Brazil, Španija, Italija, Francuska, Slovenija, Hrvatska, Argentina.

Predstavilo se oko 900 izlagača iz 43 zemlje u šest hala Beogradskog sajma, kao i 105 vinara iz deset zemalja. Zemlja partner Sajma turizma bila je Hrvatska, koja je takođe imala i najmasovniji nastup.

Po rečima predsednika Hrvatske turističke organizacije, cene smeštaja u hrvatskim letovalištimu ove godine biće kao i u prošloj letnjoj sezoni.

Svaki turista moći će da pronađe sme-

štaj koji odgovara njegovim mogućnostima, a cene su od 10 do 350 evra na dan. On procenjuje da će ove godine u Hrvatskoj letovati oko 100.000 turista iz Srbije, što je više nego prošle godine.

Najviše građana Srbije do sada je letovalo u Istri, a otvaranjem avio linije između Beograda i Dubrovnika trebalo bi da poseta bude ravnomerna po celoj obali.

Srž ovogodišnjeg beogradskog Sajma turizma i jesu bila letovanja jeftinija za 30 odsto. Međutim, kao i prethodnih godina, najveće interesovanje vlada za Grčku, zatim za Tursku, Španiju, Ita-

liju. Iako svi pričaju da su cene iste kao i prethodne godine i da je moguće letovati za nekoliko desetina evra, ipak se ponegde naglašava da su pojedine zemlje svoje cene povisile zbog nestabilnosti u Tunisu i Egiptu.

Što se tiče crnogorskog primorja, srpski turisti po tradiciji čine trećinu od ukupnog broja turista, od 1,8 miliona noćenja. Njihov broj nije smanjen ni posle vizne liberalizacije, jer Srbi imaju naviku da letuju u Crnoj Gori, u

kojoj se osećaju kao kod kuće. Srpski turisti zimi i za vreme novogodišnjih praznika posećuju i planine Crne Gore, koja je postala interesantna destinacija i za aktivni odmor, rafting, ekoturizam, seoski i avanturistički turizam. U ovoj zemlji je u razvoju i kongresni turizam, a procena je da će on biti interesantan i za srpsko tržište. Svoju turističku ponudu Crna Gora je ove godine prilagodila ekonomskoj situaciji u zemlji i regionu. Noćenje u privatnom standardizovanom smeštaju za šest evra dnevno je osnov ove ponude. Crna Gora je takođe pokrenula akciju „Zove more“, koja podrazumeva sedmodnevne aranžmane u privatnom smeštaju ali i hotelima sa dve i tri zvezdice po ceni od 42 do 74 evra, u zavisnosti od termina. Za ovakvu ponudu turistički radnici su se opredelili zbog procene da se ove godine očekuje najviše turista koji na letovanje idu sa idejom da ne potroše previše novca.

S. J.

Na ovom sajmu, na sopstvenom štandu, ponudu poslovnog i kongresnog turizma u Srbiji i na području jugoistočne Evrope predstavila je i Asocijacija kongresne industrije, The Best Solutions.

Celokupnu ponudu sa preko 250 partnera-ponuđača u kongresnoj industriji regiona, The Best Solutions je predstavio putem specijalizovanih internet portala www.kongresniturizam.com i www.SEEmice.net, kao i štampanim izdanjem kataloga kongresne industrije – SEEmice i promotivnim materijalima svojih partnera, a informativno-edukativnu ulogu je imao časopis specijalizovan za organizaciju događaja i kongresni turizam SEE business travel and meetings, čija su poslednja izdanja posetioци imali prilike da pročitaju.

IFT International Fair of Tourism in Belgrade

PLANS FOR SUMMER WELL UNDER WAY

There were about 900 exhibitors from 43 countries present in the six exhibition halls of the Belgrade Fair, along with 105 journalists from ten countries. The country-partner at the Tourism Fair was Croatia, who also had the largest show.

Under the slogan "Summer Starts Today!" the 33rd IFT International Fair of Tourism was held from 24 to 27 February 2011 in Belgrade. Beside the

offers for tourist travel packages on the Tourism Fair, held at the exhibition surface space of more than 32.000 sq. m., there was the second Wine Fa-

ir, called Beo Wine Fair. At this year's Wine Fair the Ministry of Economy presented the travel package "Wine Roads in Serbia", and the National Tourism Organization of Serbia offered its "Wine Road Map of Serbia".

For the first time at this year's fair the tourism and gastronomic offer was presented by the Republic of South Africa, and other exhibitors came from India, Peru, Brazil, Spain, Italy, France, Slovenia, Croatia and Argentina.

There were about 900 exhibitors from 43 countries present in the six exhibition halls of the Belgrade Fair, along with 105 journalists from ten countries. The country-partner at the Tourism Fair was Croatia, who also had the largest show.

According to the president of the Croatian National Tourist Board, prices for accommodation in Croatian summer resorts this year will be at the same level as during the last summer season. Each tourist will be able to find lodging according to his or her means, with prices ranging from 10 to 350 Euros per day. He also estimated that there will be around 100,000 tourists from Serbia taking their holidays in Croatia this year, which is more than last year. Most of those coming from Serbia so far stayed in Istria, and with the opening of the air line between Belgrade and Dubrovnik the visit should be distributed more evenly along the coast.

The main point of this year's Belgrade Tourism Fair were the holidays cheaper by 30 percent. Just like in the past years, however, the greatest interest is shown for Greece, than Turkey, Spain, and Italy.

Even though everybody says that prices remain the same as in the last year, and that it is possible to take a holiday for several dozen Euros, it is still emphasized from time to time that certain countries raised their prices due to instability in Tunisia and Egypt.

As for the Montenegrin sea coast, Serbian tourists traditionally make one third out of the total number of tourists, i.e. out of 1,8 million overnight stays. Their number did not decrease after the visa liberalisation, because the Serbian people are used to spend

their summers in Montenegro, as they feel at home there.

Serbian tourists also visit the mountains in Montenegro, both in summer and in winter or during the New Year's holidays, as it has become an interesting destination for an active holiday, rafting, eco-tourism, rural and adventure tourism. The meetings industry is also developed in this country, and it is estimated that it will be interesting for the Serbian market

as well. This year Montenegro adapted its tourist offer to the economic situation in the country and the region. Overnight stay in private standardised accommodation at 6 Euros per day is the basis of this offer.

Montenegro also launched an action called "Sea Invites", which consists of seven-day travel packages in private accommodation, but also in hotels with two or three stars, at 42 to 74 Euros per day, depending on the season. Tourist workers decided for such an offer after assessing that they can expect most tourists coming this year for summer holidays to have the idea not to spend too much money.

S. J.

The Meetings Industry Association, The Best Solutions, presented also at this fair at their own stand offer of business and congress tourism in Serbia and in the Southeast Europe.

The entire offer with over 250 members/event suppliers of the region was presented by The Best Solutions via specialised Internet portals **www.kongresni-turizam.com** and **www.SEEmice.net**, and also through the printed annual guide for meeting planners – SEEmice and promotional materials of their partners.

SEE Business Travel And Meetings, specialized magazine for business travel and meetings industry, had its information-educational role, as visitors had the opportunity to browse through the latest issue.

VRAĆANJE PRIRODI - KAMP TURIZAM

U svakodnevnom korišćenju termina kampovanje, obično podrazumevamo višednevni boravak u prirodi, na moru, reci, planinini, i to u kraćem periodu. Međutim, termin kampovanje je dosta širok pojam i načelno se može podeliti u tri osnovne grupe: Bivak (bivakovanje), kamp (kampovanje) i logor (logorovanje). Naravno, postoje i kombinacije ova tri tipa boravka u prirodi, i upravo ti kombinovani oblici su i najčešći jer je dosta teško povući jasnu granicu između ova tri oblika.

Bivak se odnosi uglavnom na jedno-dnevne boravke ili boravke za jednu noć u prirodi. Veliki deo nas gotovo cele sezone sprovodi upravo ovu aktivnost, koju nazivamo izlet, ali pošto se izvodi na uglavnom unapred određenim mestima, pogodnim za kraći boravak, onda je to ustvari bivak. Dakle, bivak je prostor koji je pogodan samo za boravak na kraće vreme, bez dodatnih radova na uređenju.

Vid boravka u prirodi, kao što je bivak, najčešće se upražnjava na proputovanjima kao na primer kod biciklista, motociklista, kajakša, ali i onih koji se u nedostatku vremena opredeljuju za pogodne lokacije u blizini stanovanja kako bi proveli dan u prirodi.

Kamp - Svaki bivak zavidi i sanja da postane kamp. Razlika između bivka i kampa je vrlo mala, a odnosi se uglavnom na postojanje nekih infrastrukturnih elemenata, kao na primer uređen prilaz i uređen prostor.

Za ovakav vid boravka u prirodi uglavnom se opredeljuju oni koji imaju adekvatnu opremu za višekratnu upotrebu i koji u takvim uslovima borave u prirodi od nekoliko dana pa do nekoliko nedelja.

Logor - Podrazumeva postojanje infrastrukturnih elemenata, dakle uređen prostor i uređene prilaze sa postojanjem nekih stalnih objekata za boravak, najčešće od čvrstog materijala.

Uređen prostor i uređeni prilazi podrazumevaju uređena i određena mesta za šatore, kamp prikolice ili kamp vozila, postojanje puteva do logora, putokaze, obaveštenja o lokaciji i slično. Pod infrastrukturnim elementima

se podrazumeva postojanje unutrašnjih puteva i staza, priključci za struju i vodu, pa čak i za plin i telefon / internet. Često postoje i stalni objekti tipa zajedničkog WC-a i kupatila, kao i

U praksi se ova vrsta uređenog prostora pogrešno naziva kamp, ali je to ljudima prihvatljiviji i zvučniji naziv od naziva logor. Veoma su rasprostranjeni na primorju i na planinama, a neretko se nalaze i u okviru banja i drugih letovališta i odmarališta. Takođe i u Srbiji na Dunavu ih postoji već nekoliko.

objekti za neke od uslužnih delatnosti tipa restorana, picerija, pekara pa čak i pošte.

Ovakav vid odmora i boravka u prirodi postaje sve popularniji svuda u svetu, posebno iz razloga što nema potrebe za uređenjem prostora niti za bilo kojim drugim radovima, jer to sve već postoji. Čak nikakva dodatna oprema nije potrebna, već ona uglavnom postoji na određenoj lokaciji. Kako postoji više vrsta kampova, tako svako može da izabere nešto po svom ukusu. Potrebna je samo dobra volja, malo vremena za sebe ili porodicu, pozitivna atmosfera, a sve ostalo je prepušteno prirodi.

Najbolja kemperska iskustva na svetu

Termin kamp se koristi za tri različite vrste smeštaja: Ona vrsta gde nosite sve na svojim leđima i postavljate ga, vraćajući se na ono osnovno sa šatorom, vatrom i slavnom prirodom; ona vrsta vesele družine koja kampuje gde se ne očekuje da vam nedostaje topao tuš ili električna struja, a gde ima svakakve dodatne zabave, koja vam se pruža da biste izvukli najviše moguće iz vašeg odmora u prirodi. Postoji takođe i luksuzna ili vrsta afričkog safarija, gde ne morate da se bavite silnim nošenjem i deljenjem pogodnosti.

Ova lista najboljeg kampovanja na svetu sadrži sjajne primere za sve tri vrste:

I „Sirovo“ kampovanje

Neposredno pošto ste utovarili svoj ranac, krenuli neobeleženom stazom, zaustavili se i postavili kamp, tu su neka od najboljih udaljenih mesta i kampova sa osnovnim potrepštinama, koji obećavaju: „Čovek i priroda - iskustvo kampovanja“.

- 1) **Gwern Gof Isaf Farm** - Gwern Gof Isaf je više mesto iz legende nego običan kamp, gde generacije planinara dolaze da se okušaju na najimpresivnijem brdu u Snoudoniji u Velsu - na moćnom Trifanu, jednom od najprepoznatljivijih vrhova u tom regionu. Popularan je kod takmičara za Nagradu vojvode od Edinburga, kod penjača po stenama. Ova „farma“

je nacionalno blago, a ima prostorijske ležajevima i mesta za podizanje šatora. Prošetajte unaokolo, donesite ili iznajmite planinski bicikl kako biste mogli da se odvezete do peskovite plaže ili do unutrašnjeg zagrejanog bazena, teniskih terena ili do golf kluba.

- 2) **Sligachan Kamp** - Ovaj kamp se nalazi u srcu Kuilina, venca stenovitih planina lociranih na ostrvu Skaj u Škotskoj. Tu prekoputa je i čuveni pab gde prave sopstveno pivo.
- 3) **Farma Turner Hall** u dolini Dadon u nacionalnom parku Lake District u Velikoj Britaniji ima temperament. Ova farma je smeštena u pitomom okruženju, ali je popularna kod izletnika koji vole da plani-

nare. Farma Turner Hall je kamp sa osnovnim potrebama za šetače i penjače, a privlačna je više zbog svoje lokacije i izgleda nego zbog pogodnosti.

- 4) **Farma Troytown**, daleka, daleka, daleka lokacija u Atlantskom okeanu pruža kamperima osećaj da se nalaze na samoj ivici sveta. Činjenica da traktor dolazi da pokupi vas i vašu opremu samo pridodaje osećanju da ste daleko od mnogih stvari koje vas verovatno gnjave. Pogled se pruža na Atlantik iza Biskupove stene, tu je svetionik i nenaseljeno ostrvo Anet, drugo po veličini od 50 nenaseljenih Sili ostrva u Ujedinjenom Kraljevstvu. Udaljenost znači da je plaža čista i bez gužve, a status bivše farme znači da su domaće mleko, usirena pavlaka, sladoled, puter, jogurt, sezonsko povrće, svinjetina i govedina koji se prodaju u radnji daleko bolji nego ono što kupujete kod kuće.

Sa ivice sveta na vrh sveta:

- 1) Udaljeni kamp **Lo Stambecco** u Nacionalnom parku Gran Paradiso predstavlja izazov za doći do njega, ali je pogled jednom kad pristignete vredan truda, sa planinama i glečerima u krugu od celih 360 stepeni. Ovaj kamp se nalazi na Alta Via, jednom od najpoznatijih letnjih šetališta na italijanskim Alpima, sa sve odjecima zvona koja se nalaze oko vrata teladi, svežim vazduhom i divnim pejzažima.

- 2) Za **Petit Praz** pored Monta u Švajcarskoj se tvrdi da je najviši kamp u Evropi, smešten na visini od 1.970 metara, sa 80 smeštajnih mesta. Ovo je idealan bazni kamp za izletnike i penjače.

II Praznično kampovanje

Ovo kampovanje je za porodice i ljude kojima bi praznik bio varvarski bez toplog tuša i jutarnje kafe.

- 1) **Fisherground Kamp** - je smešten usred Eskdejlja u UK, u jednoj od najlepših dolina Kumbrije. Između „50 Najboljih kampova na svetu“, Fisherground je odabran među prvih 18, a među prva 4 za dečije odmone. Ovaj kamp je pravi dečiji san: ima stazu avanture, kućicu na drvetu, ogradu od žice, i jezerce sa splavovima; a samo malo niz put je minijaturna parna železnica.
- 2) **Kamp u šumi Blekberi** - Šuma Blekberi jedan je od interesantnih kampova u UK, a nudi seosko kampovanje kakvo bi trebalo da bude. Ovo mesto je savršeno ako vaša deca vole da prave larmu. Smešten u šumi u dnu South Downsa, on je doslovno dah svežeg vazduha. Jedna od dvadeset čistina u šumi pruža savršeno mesto za postavljanje šatora. Bez komšiluka, neuglednih karavana i zagađenja bukom, bogato mnoštvo ptica će vam pevati serenade uveče, kada je vreme da se

zapali seoska logorska vatra. Za razliku od mnogih drugih kampova, ovaj kamperima nudi da slobodno pale logorske vatre.

III Komforno kampovanje

Kamperski safari jedan je od najstarijih primera kampovanja uz kuhinjsku sudoperu. Ovakva komforna tradicija prevladava u nekim kampovima.

- 1) **Grumeti rečni kamp** u zapadnom Serengetiju na severu Tanzanije u Africi, na pravom je mestu za Veliku migraciju, sa svojim drvenim podom, zastarelim drvenim kupatilima i širokim, ručno pravljenim krevetima, sve smešteno da nadgleda privatni komad zemlje duž reke Grumeti ispunjene nosorozima.
- 2) **Pansea Ksar Ghilane**, lociran u južnom delu Tunisa, na putu za Djerbu, definitivno zavređuje pet zvezdica. Ovaj kamp u oazi u saharскоj pustinji ima rajski uređen

Grumeti River Camp

bazen koji se puni sa prirodnog izvora, kao i 60 šatora sa klimom, opremljenih sa po četiri kreveta i nameštajem od kovanog gvožđa.

Kampovanje kao izbor za letovanje razmatra sve veći broj ljudi. To je fantastičan način da dospete

pravo usred često zapanjujućeg pejzaža i da doživite deo tog predela kojim putujete.

Takođe možete da zađete u nacionalne kuhinje tog regiona, uz posetu pijaci gde se možete snabdeti hranom i gorivom za logorsku vatru.

RETURN TO NATURE - CAMPING TOURISM

In everyday use of the term "camping" we usually take it to mean a few days of staying outdoors, at the seacoast, on a river or mountain, in a short period of time. The term camping is, however, a wider concept and in principle it can be divided into three basic groups: Bivouac (bivouacking), camp (camping) and tent (tent lodging). Naturally, these three types of staying outdoors may combine, and those combined forms are the most frequent ones, as it is rather difficult to draw a clear line between those three forms.

Bivouac refers mainly to one - day or overnight stay in nature. A great number of us are active in this way for almost the entire season, calling it a jaunt, but as it is mostly done in previously chosen places suitable for a short stay, then it turns out to be a bivouac. Therefore, a bivouac is

The form of staying outdoors, such as a bivouac, is most often used when one is passing through, as for example it is the case with bicyclists, motorcyclists, kayakers, but also with those who lack enough time, and thus decide for a suitable location in the vicinity of one's residence, in order to spend a day outside in the nature.

a space convenient only for a short - term stay, with no additional efforts in arranging it.

Camp - Each bivouac is envious and dreams of becoming a camp. The di-

fference between a bivouac and a camp is rather negligent, referring mainly to the existence of certain infrastructure elements, such as an easy access and a landscaped area.

This form of staying outdoors is mainly chosen by those who have adequate equipment for repeated usage, and who stay outdoors under such conditions from several days to a few weeks.

Tent lodging - It implies the existence of infrastructural facilities, i.e. landscaped area and easy access, with several permanent buildings for lodging, most often made of solid materials. Landscaped area and easy access also implies nicely arranged and designated places for tents, camping trailers or camp vehicles, road leading to the tent lodging, road signs, information on the location, and so on. Infrastructural elements involve the existence of internal roads and paths, electric power and water sockets, and even connections for gas and telephone / Internet. There are often several buildings too, such as a common rest rooms and bathrooms, and facilities housing some of the services, such as restaurants, pizzerias, bakery shops, and even a post office.

In practice this type of arranged space is wrongly named "camp", but it is a more acceptable and better sounding name than tent lodging. They are widespread along the coast and in the mountains, and more often than not they can be found in spas and other resorts and holiday retreats. Also, there are several in Serbia on the Danube.

This form of holiday and sojourn outdoors is becoming more and more popular everywhere in the world, particularly so as there is no need to arrange the space or perform any other works, as it all exists already. No additional tackle is needed, as it already exists on a certain location. As there are several types of camps, everyone can chose for oneself according to one's taste. All one needs is some goodwill, a bit of time to oneself or one's family, a positive atmosphere, and all the rest is left to nature.

Gwern Gof Isaf Farm

World's Best Camping Experiences

The word **campsite** is used for three different kinds of accommodation: The kind where you carry your world on your back and set it up, getting back to basics with a tent, a fire and the great outdoors; the kind of cheerful community camping where you're not expected to miss out on hot showers or electrical essentials, and there's all sorts of additional entertainment laid on to help you get the most out of your holiday in nature. There is the luxury or African Safari kind too, where there's none of this carrying or sharing to be dealing with.

This list of the world's best camping has excellent examples of all three kinds:

1 "Roughing it" Camping

One step off loading up your pack, getting out on the unmarked trail and stopping and setting up camp when you get tired, these are some of the best remote and basic campsites, promising a "Man and Nature camping experience".

1) **Gwern Gof Isaf Farm** - Gwern Gof Isaf is more a place of legend than a mere campsite, where generations of mountaineers have come to challenge themselves on the most impressive hill in Snowdonia, Wales - the mighty Tryfan, one of the most recognisable peaks in the region. Popular with Duke of Edinburgh Award challengers,

Blackberry Wood Campsite - A Pixie keeps a casual eye on passing campers

rock climbers and abseilers, this "farm" is National Trust, which has bunkhouses and pitches.

Walk around, or bring, or hire, a mountain bike so you can ride down to the sandy beach, or to the indoor heated pool, tennis courts or gold club.

2) **Sligachan Campsite** - This campsite is situated in the heart of the Cuillin, a range of rocky mountains located on the Isle of Skye in Scotland. There's a famous for brewing its own beer pub across the road.

3) **Turner Hall Farm** in the Lake District's Duddon Valley in United Kingdom, has a tempered, but is

still well loved by the hiking boots set. Turner Hall Farm is a basic campsite for walkers and climbers, the attraction being its location and outlook rather than the facilities.

- 4) **Troytown Farm's**, remote, remote, remote location on the Atlantic Ocean gives campers the feeling of being on the very edge of the known world. The fact that a tractor comes to pick up you and your gear just adds to the feeling of being away from a lot of the things that probably bother you about the world.

The views are of the Atlantic behind Bishop's Rock, a lighthouse and the uninhabited island of Annet, the second largest of the 50 uninhabited Isles of Scilly in United Kingdom. The remoteness means the beach is clean and uncrowded,

and the ex-farm status means that the home produced cream, clotted cream, ice cream, butter, yoghurt, seasonal veggies and beef and pork sold in the store are way better than what you can buy at home.

From the edge of the world to the top of the world:

- 1) The remote campsite **Lo Stambocco** in the Gran Paradiso National Park is a challenge to get to, but the views once you arrive are well worth it, mountains and glaciers for 360 degrees. This campsite is on the Alta Via, one of the Italian Alps' most famous summer walking ways, all cowbells, crisp air and scenery.
- 2) **Petit Praz** by La Monta, Switzerland, claims to be Europe's highest campsite, perched at 1970 me-

tres and has 80 places. It is the ideal base camp for hiking and climbing.

II Holiday Camping

This is camping for families and people for whom a holiday would be barbaric without a hot shower and coffee in the morning.

- 1) **Fisherground Campsite** - is set right in the heart of Eskdale in UK, one of Cumbria's loveliest valleys. Of the "50 World Best Campsites", Fisherground is chosen in the overall Top 18 and in the overall Top 4 for children's enjoyment. This campsite is really a child's dream: it has an adventure course, a tree house, zip wire and a pond with rafts; and just down the road is a miniature steam railway.

- 2) **Blackberry Wood Campsite** - Blackberry Wood is one of the more interesting campsites in the UK which offers rural camping as it should be. This place is perfect if your kids like to make a lot of noise. Set in a woodland at the foot of the South Downs, it is literally a breath of fresh air.

One of twenty clearings in the woodland provides the perfect spot to pitch a tent. Free of neighbours, unsightly caravans and noise pollution, the rich variety of birds will serenade you into the evening, when it will be time to light a rustic campfire. Unlike many other

campsites, this one encourages campers to make open fires.

III Comfortable Camping

Camping Safari's are some of the oldest examples of camping with the kitchen sink. These comfortable traditions prevail in some camps.

- 1) **Grumeti River Camp** in the Western Serengeti in north Tanzania, Africa, are in prime position for the *Great Migration*, with their wooden floorboards, dinky wooden bathrooms and wide, hand built beds, all arranged overlooking a private stretch of the hippo filled Grumeti River.

- 2) **Pansea Ksar Ghilane**, located in the southern part of Tunisia, a drive out of Djerba, is definitely five star. This Saharan desert oasis camp has a paradise-landscaped pool fed by a natural spring and 60 air conditioned tents decked out with four poster beds and wrought iron furniture.

Camping as a holiday choice is being considered by more and more people. It's a fantastic way to get right into the middle of an often stunning landscape, and to feel part of the region you are travelling to.

You also get right into the food culture of the region, with visits to markets to source food for the camp fire.

Najbolje grupe za poslovno umrežavanje funkcionišu kao centri razmene poslovnih informacija, ideja i podrške. Najvažnija veština za efektivno poslovno umrežavanje je sposobnost slušanja, a usredsređivanje na to kako se može pomoći osobi koju slušate pre nego na to kako oni ili ona može pomoći vama predstavlja prvi korak za uspostavljanje međusobno korisnog odnosa.

EVROPSKO KLINIČKO DRUŠTVO ZA AIDS (EACS)

Evropsko Kliničko Društvo za AIDS (EACS) je neprofitna grupa evropskih lekara, kliničara i istraživača u oblasti HIV/AIDS-a. To je vrsta medija u kome dolazi do fizičkog okupljanja kupca, prodavca i proizvoda - snažnog podsticaja za poslovanje. Neki od trgovačkih sajmova su otvoreni za javnost, dok druge mogu posećivati samo predstavnici kompanija (članovi privrednog sektora), kao i predstavnici sedme sile.

BUSINESS NETWORKING

Business Networking is the process of establishing a mutually beneficial relationship with other business people and potential clients and/or customers. The key to true business networking is the establishment of a mutually beneficial relationship, and that's an incredibly rare event at the standard shake-hands-and-exchange-your-business-card events that are touted as business networking "opportunities". The best business networking groups operate as exchanges of business information, ideas, and support. The most important skill for effective business networking is listening; focusing on how you can help the person you are listening to rather than on how he or she can help you is the first step to establishing a mutually beneficial relationship.

FRANCUSKI „SPAJDERMEN“ OSVAJA BURDŽ HALIFU

Francuz Alen Robert, koji sebe naziva „Spajdermenom“, rešio je da osvoji najviši soliter na svetu, kulu Burdž Halifa u Dubaiju. Robert (48) je pred početak uspona ocenio da će do vrha solitera visokog 828 metara stići za šest do sedam sati, preneo je Associated Press.

Pričvršćen sigurnosnim užadima, Robert se uspinjao po fasadi od metala i stakla, ali nije koristio konopce, već se samo šakama i stopalima oslanjao na ukrasne grede zgrade. Alen Robert je do vrha najviše zgrade na svetu, koja ima više od 160 spratova, zaista uspeo da stigne za šest sati, 13 minuta i 55 sekundi. U podnožju solitera se okuplja nekoliko stotina gledalaca, a u blizini je uvek parkirano i ambulantno vozilo. Rober se dosad popeo na više od 70 solitera, među kojima Empajer stejt bilding u Njujorku, Vilis tauer u Čikagu, kule Petronas u Kuala Lumpuru i Tajpej 101, koji je pre Burdža bio najviši soliter na svetu, navedeno je na njegovom veb sajtu.

PRVI PODVODNI HOTEL U DUBAIU

Svi ljubitelji ekstravagantnog odmora, egzotične arhitekture, ronjenja i podvodnog sveta imaju jedinstvenu priliku da uživaju u jednom „novom svetu“ - podvodnoj oazi mira, hotelu „Hidropolis“ u Dubaiju, koji je inspirisan romanom Žila Verna „20.000 milja pod morem“.

Ovaj podvodni džin je dobio ime „Podvodni kompleks Hidropolis“, a u njegovu izgradnju je uloženo 600 miliona dolara. Sastoji se od obalskog i podvodnog dela, koji se spušta na 20 metara dubine. U tom delu su smeštena dva restorana i nekoliko barova, salon lepote, spa centar, zlatara, nekoliko butika, plesna dvorana, bioskop i komforna konferencijska sala s providnom kupolom. Za najmlađe je izgrađen „dečji svet“, dok će se zabavne i kulturne manifestacije održavati u specijalnoj nadvodnoj sali na otvorenom. U ovo podvodno „carstvo“ se sa obale stiže specijalnom žičarom kroz podvodni tunel dug 300 metara, koji je sa gornje strane providan, tako da od samog početka putovanja u „Hidropolis“ postaje čarobno. Oblik hotela podseća na broj osam koji leži na vodi, a unutar krugova nalaze se sobe, apartmani, sale i dvorane. Na ogromnoj teritoriji hotela je smešteno 220 soba sa plafonima kroz koje se vidi podvodni svet Persijskog zaliva, a najjeftinije noćenje košta oko 600 dolara. Ovaj hotel omogućava, pored neverovatnog pogleda na podvodni svet, morske zvezde, plavetnilo i ostalu podvodnu prirodu i pogled na vedro nebo, jer mu vrh viri iznad vode. Sobe, sale za konferencije, koncertne dvorane, kockarnice, bazeni prostiru se na oko 100 nivoa. Bezbednost gostiju u hotelu ispod vode garantuje specijalan protivraketni sistem.

RIC KARLTON NAJVIŠI HOTEL NA SVETU

U Hong Kongu je otvoren najviši hotel na svetu - Ric Karlton. Nalazi se na oblakoderu visine od oko 490 metara i nudi panoramski pogled na bivšu britansku koloniju, koja je 1997. godine vraćena Kini. Hotel Ric Karlton je smešten na 118. spratu Međunarodnog trgovinskog centra u Hong Kongu. Za izgradnju ovog hotela bilo je potrebno oko 10 godina, a ujedno je i najskuplji hotel u Hong Kongu. Noćenje ovde košta 6.000 hongkonških dolara (546 evra) za deluks sobu, a cena predsedničkog apartmana je 100.000 hongkonških dolara. Kineski gosti sada čine oko 35 odsto klijenata lanca hotela Ritz Karlton, dok je taj procenat pre 14 godina činio samo tri do četiri odsto. Očekuje se i porast ovog broja posetilaca, s obzirom da je Azija jedno od ključnih tržišta. Ipak, kako se najavljuje u štampi, Ric Karlton će 2014. godine izgubiti titulu najvišeg hotela na svetu, jer se za taj period u Šangaju planira otvaranje hotela pod imenom J-Hotel, visokog 600 metara.

NORVEŽANIN STVARA MUZIKU OD LEDA

Terje Isungest je norveški muzičar i kompozitor. Pored svog iskustva u džez i skandinavskoj muzici, dizajnirao je i muzičke instrumente od netradicionalnih materijala, uključujući led. Terje je prvi i jedini „ledeni muzičar“ na svetu.

Zaleđene instrumente svira već 10 godina, a osnivač je norveškog godišnjeg festivala „Ice music“ koji se održava u Gejlu. Scena unutar zaleđenih vodopada na vrhu 3.000 metara visokih glečera, koje natkrivaju masivni ledeni svodovi na temperaturi do minus 33 stepena Celzijusa, za nekoga može biti u najmanju ruku neobična i neprihvatljiva za nastup, ali za norveškog muzičara predstavlja idealno okruženje za muziku koju stvara. Ljubav prema ovakvoj vrsti muzike se kod njega razvila kada je prvi put pozvan da svira unutar zaleđenog vodopada. Tada je imao priliku i da isproba neobične i prelepe zvukove koje led proizvodi. Osim što svira, sam je napravio i nekoliko instrumenata od leda. Instrument koji je Norvežaninu najduže trajao bio je ledeni rog, isklesan od dela glečera starog 2.500 godina. Trajao mu je čak 50 nastupa. Inače, instrumenti načinjeni od leda jedva da izdrže nekoliko izvođenja, tako da priroda odlučuje o svemu. Svaki koncert je jedinstven i priroda odlučuje kakav će biti i kako će instrumenti zvučati.

SOBA OD ČOKOLADE

Povodom Dana zaljubljenih u jednom tržnom centru u Litvaniji napravljeno je nešto jedinstveno. Posetiocima tržnog centra u Viljnusu, prestonici Litvanije, na ovaj dan je predstavljena soba u potpunosti napravljena od čokolade.

Soba od čokolade je izgledala kao tradicionalna litvanska dnevna soba u potpunosti opremljena, s tim što su nameštaj, slike, svećnjaci i knjige, naravno, napravljeni od čokolade.

Za „slatku sobu“, koju je pravilo sedam ljudi, površine 17 metara kvadratnih, upotrebjeno je 300 kilograma čokolade.

Na Dan žena, 8. marta, soba je „uništena“, a čokolada podeljena posetiocima.

RECIKLAŽOM MOBILNIH TELEFONA ŠTITIMO ŠIMPANZE

Ciljanim sakupljanjem starih mobilnih telefona i njihovom reciklažom mogu se uštedeti vredne sirovine i istovremeno zaštititi životni prostor šimpanzi.

Stvar je u tome da je u samo jednom mobilnom telefonu sadržano oko 60 različitih sirovina, među kojima su kobalt, zlato, cink i koltan. Te se sirovine najvećim delom eksploatišu u afričkoj državi Kongo, koja je prirodno stanište gorila i šimpanzi, zbog čega ove životinje iz dana u dan gube na životnom prostoru. Akciji sakupljanja i recikliranja starih mobilnih telefona priključila se i Austrija. U ovoj kampanji se pošlo od dece,

odnosno edukacije dece o postojanju veze između korišćenja mobilnih telefona i smanjenja životnog prostora čovekolikih majmuna. Više od 800 bečkih preduzeća na bazi Eko biznis plana ciljano je informisano o tome zašto je važno sakupljati stare mobilne telefone. Osim toga u brojnim gradskim ustanovama postavljene su kutije za odlaganje starih mobilnih telefona.

IZLOŽBA POD VODOM NA KRKU

Na ostrvu Krk u Baškoj postavljena je izložba pod vodom. Posetioци ovu izložbu mogu razgledati samo plivajući ili roneći.

Autor ove izložbe, Marjan Radović naglašava da su izloženi motivi na prvoj izložbi isključivo iz kvarnerskog područja, a fotografije su nastale u periodu poslednjih nekoliko godina. Već prvih dana među turistima vlada veliko zanimanje za neobičnu izložbu. Želja je da se lepote hrvatskog podmorja približe onima koji ne rone. Za one hrabrije autor sprema novo iznenađenje.

Reč je o stalnoj postavci podmorske fotografije na jednoj olupini za čije će razgledanje zasigurno trebati bar osnovni ronilački tečaj.

Do tada će njegove fotografije povremeno krasiti hrvatske bazene.

ŠTA SVE MOŽE DA SE SANJA U APARTMANU OD 35.000 DOLARA ZA NOĆ?

Vodeći ljudi hotela „Four Seasons“ u Njujorku računali su na to da dobar san nema cenu! S toga, noćenje u apartmanu „Vornor Penthaus“ (Warner Penthouse) košta ništa manje do 35.000 dolara. Apartman se prostire na 400 kvadratnih metara i sastoji se od spavaće sobe s kupatilom, dnevnog boravka i biblioteke, kao i sobe za presvlačenje, doručkovanje, šminkanje i meditaciju. Zidovi apartmana ukrašeni su sedefom i poludragim kamenjem ili su presvučeni mekom telećom kožom. Penthaus ima i najveća staklena klizna vrata koja su ikada napravljena. Međutim, i pored svog tog luksuza postoje određena ograničenja. U apartmanu mogu da oseedaju najviše dve osobe s detetom ili tri odrasle osobe.

FRENCH „SPIDERMAN“ TO CONQUER BURJ KHALIFA

Frenchman Alain Robert who calls himself „Spiderman“, decided to conquer the tallest skyscraper in the world, the Burj Khalifa tower in Dubai. Before embarking on the daring ascent, Robert (48) assessed he would reach the top of the 828 metres high skyscraper in six to seven hours, as reported by Associated Press.

Secured by safety ropes, Robert climbed up the metal and glass facade, but did not use the climbing ropes. Instead, he was leaning on the decorative beams of the edifice by his hands and feet. Alain ascended the exterior of the world's tallest building, which has more than 160 stories, in six hours 13 minutes and 55 seconds. At the foot of the skyscraper a few hundred spectators gather, and there is always an ambulance parked nearby. Robert has climbed more than 70 skyscrapers so far, as cited on his web site, among them the Empire State Building in New York, Willis Tower in Chicago, Petronas Tower in Kuala Lumpur and Taipei 101 Tower, which before the Burj was the highest skyscraper in the world.

FIRST UNDERWATER HOTEL IN DUBAI

All devotees of extravagant holidays, exotic architecture, diving and underwater world, have a unique opportunity to enjoy in a “new world” - an underwater oasis of tranquillity, the Hotel “Hydropolis” in Dubai, inspired by Jules Verne’s novel “20,000 Miles Under the Sea”.

This underwater giant was named “The Underwater Resort Hydropolis”, and its construction consumed 600 million US dollars. It consists of a coastal and an underwater part which goes to 20 metres in depth. That part houses two restaurants and a few bars, a beauty salon, spa centre, a jewellery, several boutiques, a dancing hall, movie theatre, and a comfortable conference hall with as see-through dome. For the youngest was constructed “children’s world”, and the entertaining or cultural events will be held in a special open air above water hall. One reaches this underwater “empire” from the coast via special cable car through an underwater tunnel 300

metres long, which is transparent on top so the trip to “Hydropolis” becomes magical from the very beginning. The shape of the hotel is reminiscent of number eight lying on water, with rooms, suites, halls and auditoria situated inside the loops. There are 220 rooms on the enormously vast surface space occupied by this hotel. The ceilings in the rooms give view onto the underwater world of the Persian Gulf, and the cheapest overnight stay costs around 600 US dollars. The hotel gives view, beside the incredible sight of the underwater world, the starfish or the azure sea and other underwater life, view of the clear sky too, as its peak protrudes above the water. The rooms, conference halls, concert halls, gambling salons, and swimming pools occupy about 100 levels. The security for the underwater hotel guests is guaranteed by a special anti missile system.

RITZ CARLTON THE TALLEST HOTEL IN THE WORLD

The tallest hotel in the world was opened in Hong Kong - the Ritz Carlton. It is located in the skyscraper which is about 490 metres tall, offering a panoramic view onto this former British colony which was repossessed by China in 1997. The Ritz Carlton hotel is located on the 118th floor of the International Trade Centre in Hong Kong.

It took about 10 years to erect this hotel, and it is the most expensive hotel in Hong Kong. Single overnight stay in this hotel costs 6,000 Hong Kong dollars (546 Euros) for a deluxe room, while the price for the presidential suite is 100,000 Hong Kong dollars.

Chinese visitors now make up about 35 percent of clients Ritz Carlton hotel chain, while the percentage was only three to four percent 14 years ago. The increase in this number is expected taking into account that Asia is one of the key markets. Still, as announced by the press, the Ritz Carlton will lose its title of the tallest hotel in the world by 2014, as it is planned to open a hotel in Shanghai by that time under the name of J-Hotel, designed to be 600 metres high.

A NORWEGIAN CREATING MUSIC OUT OF ICE

Terje Isungset is a Norwegian musician and composer. Besides his experience in jazz and Scandinavian music, he also designed music instruments out of some non-traditional materials, including ice. Terje is the first and only “ice musician” in the world. He’s been playing the frosted instruments for 10 years, and he is also the founder of the Norwegian annual festival “Ice Music” organized in Geilo. The sight inside frosted waterfalls on top of 3,000 metres high glaciers, with massive ice ceilings looming overhead at the temperature of minus 33 degrees Centigrade, may be at least unusual to some or even inaccessible to perform, but for the Norwegian musician it is an ideal setting for the music he creates. He developed love for this kind of music when he was invited for the first time to play inside a frosted waterfall. He had

the opportunity at that time to try out some of the unfamiliar but wonderful sounds that the ice produces. In addition to playing, he also made several instruments out of ice by himself. The instrument that was to last the longest to the Norwegian was the ice horn, chiselled out of a part of the 2,500 - year old glacier. It last for the full fifty performances. Otherwise, instruments made out of ice hardly endure several performances, so that nature decides about those things. Each concert is unique, the nature deciding how it would turn out to be and how the instruments would sound.

ROOM OF CHOCOLATE

Something unique was done in a shopping mall in Lithuania on St. Valentine's Day. The visitors of the shopping mall in Vilnius, the capital of Lithuania, were presented on that day with a room made completely of chocolate.

The chocolate room looked as a traditional fully furnished Lithuanian living room, but the furniture, paintings, candlesticks, and books were all made of chocolate.

For the "sweet room", made by seven people on 17 square metres, used up 300 kilograms of chocolate. On 8th of March, the Women's Day, the room was "destroyed" and the chocolate was given out to visitors.

BY RECYCLING MOBILE PHONES WE PROTECT CHIMPANZEES

Deliberately collecting the old mobile phones and by their recycling we can save valuable raw materials and at the same time protect the living environment of chimpanzees.

The thing is that a single mobile phone contains about 60 different raw materials, among them cobalt, gold, zinc, and coltan. These raw materials are mostly exploited in the African state of Congo, the natural habitat for gorillas and chimpanzees, which is why these animals are losing daily their living space.

Austria also joined the campaign of collecting and recycling used mobile phones. The campaign started with children, i.e. educating the children about the connexions between using a mobile phone and less living space for the apes. More than 800 Viennese companies were informed purposely on the

importance of collecting old mobile phones, on the basis of eco business plan. Besides, boxes to dispose old mobile phones were put in many city institutions.

UNDERWATER EXHIBITION IN KRK

An exhibition under water was set on the island of Krk in Baška. The visitors can see the exhibition only if they swim or dive.

Author of the exhibition Marjan Radovic emphasizes that the exhibited motifs at the first exhibition are exclusively from the Kvarner region.

The snapshots were taken in the last few years. There is great interest for the unusual exhibition even after a few days since it was opened.

The intention is to make the beauties of the Croatian coast more familiar to those who take up diving. The author is preparing a new surprise for the courageous ones. It will

be a permanent exhibition of underwater photography on a hulk, where at least some elementary course in diving will be a prerequisite. Until then, his shots will occasionally decorate swimming pools in Croatia.

WHAT CAN YOU DREAM ABOUT IN A SUITE COSTING \$35,000 PER NIGHT?
